**Tuttle Learning
Chinese Characters**

**(HSK Levels 1 -3) A
Revolutionary New
Way to Learn and
Remember the 800
Most Basic Chinese
Characters** *Tuttle
Publishing*

This user-friendly book
is aimed at helping
students of Mandarin
Chinese learn and
remember Chinese
characters. At
last—there is a truly
effective and enjoyable
way to learn Chinese
characters! This book
helps students to learn
and remember both

the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short "stories," and the systematic building up of more complicated characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters

first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

English as a Global Language *Cambridge University Press*

David Crystal's classic *English as a Global Language* considers the history, present status and future of the

English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

The Last Rose of Shanghai *Lake Union Publishing*

In Japanese-occupied Shanghai, two people from different cultures are drawn together by fate and the freedom of music... 1940. Aiyi Shao is a young heiress and the owner of a formerly popular and glamorous Shanghai nightclub. Ernest Reismann is a penniless Jewish refugee driven out of Germany, an outsider searching for shelter in a city wary of strangers. He loses nearly all hope until he crosses paths with Aiyi. When she hires Ernest to play piano at her club, her defiance of custom causes a sensation. His instant fame makes Aiyi's club once again the hottest spot in Shanghai. Soon they realize they share more than a passion for jazz--but their differences seem

insurmountable, and Aiyi is engaged to another man. As the war escalates, Aiyi and Ernest find themselves torn apart, and their choices between love and survival grow more desperate. In the face of overwhelming odds, a chain of events is set in motion that will change both their lives forever. From the electrifying jazz clubs to the impoverished streets of a city under siege, *The Last Rose of Shanghai* is a timeless, sweeping story of love and redemption.

**Bound Feet &

A Memoir *Anchor*

"In China, a woman is nothing." Thus begins the saga of a woman born at the turn of the century to a well-to-do, highly respected Chinese family, a woman who continually defied the expectations of her family and the traditions of her culture. Growing up in the perilous years between the fall of the last emperor and the Communist Revolution,

Chang Yu-i's life is marked by a series of rebellions: her refusal as a child to let her mother bind her feet, her scandalous divorce, and her rise to Vice President of China's first women's bank in her later years. In the alternating voices of two generations, this dual memoir brings together a deeply textured portrait of a woman's life in China with the very American story of Yu-i's brilliant and assimilated grandniece, struggling with her own search for identity and belonging. Written in pitch-perfect prose and alive with detail, *Bound Feet and Western Dress* is the story of independent women struggling to emerge from centuries of customs and duty.

Read and Write Mandarin Chinese As the Chinese Do (Downloadable Audio and Material Included)

Tuttle Publishing

Learning to read and write Chinese requires lots of practice. This unique practice guide can be used with any Chinese textbook or on its own to enhance your proficiency in reading and writing Mandarin Chinese. Intermediate Written Chinese Practice Essentials offers a wealth of carefully-designed exercises and activities to help you develop every aspect of your reading and writing ability. This workbook has been designed so it can be used either in a class

with an instructor or by independent learners working on their own. Both simplified and traditional characters are taught and practiced in the same volume. This means students can learn either or both kinds of characters without having to purchase another book, and instructors have the flexibility to teach a combined class where some students read and write one type of characters and other students the other type. This workbook provides character practice sheets for the 336 characters introduced in Intermediate Written Chinese, with complete information on stroke order and direction for both the simplified and traditional forms of the characters. Reading

and writing exercises are included, such as those involving dictation and the answering of questions based on the content of each lesson. English-Chinese translation exercises are provided for each unit. The Downloadable content provides: Native-speaker audio recordings for dictation practice. Printable flash cards for all the new characters and words, with Chinese characters on one side and Pinyin and English on the other. Printable pdf files with additional exercises and activities. Together with this book, you can use Intermediate Spoken Chinese if you want to learn fluent spoken Mandarin. About the Series: Respected Chinese language expert Dr.

Cornelius Kubler, who has taught diplomats, business people and students, presents a learning system that uses separate but integrated "tracks" to help you efficiently master the basics of spoken and written Chinese. The materials in the Basic Chinese series allow you to move from complete beginner level to basic fluency.

Ultraviolet LED Technology for Food Applications

From Farms to Kitchens *Academic Press*

Ultraviolet LED Technology for Food Applications: From Farms to Kitchens

examines the next wave in the LED revolution and its ability to bring numerous advantages of UVC disinfection. As UVC LED-based light fixtures will become the driving force behind wider adoption, with potential use in the treatment of beverages, disinfection of food surfaces, packaging and other food contact and non-contact surfaces, this book presents the latest information, including LEDs unique properties and advantages and the developments and advances made in four areas of application, including produce production and horticulture, post-harvest and post processing storage, safety and point-of-use applications.

Alternative opportunities to current practices of food production and processing that are more sophisticated and diverse are being intensively investigated in recent decades, things like Ultraviolet light (UV) irradiation. The effects of UVC LEDs against bacteria, viruses and fungi already have been demonstrated and reported, along with the first applications for disinfection of air, water and surface made for the "point-of-use" integration.
