## Economic Review of Immunization Information Systems to ...

Immunization is one of these preventive interventions, with a potential to bring economic benefits beyond just health benefits. While vaccines are considered to be a cost-effective public health intervention, implementation has become increasingly challenging. As vaccine costs rise and competing priorities increase, economic evidence is likely

## The Economics of Immunization Policies

**Abstract.** Context: A recent systematic review found that use of an immunization information system (IIS) is an effective intervention to increase vaccination rates. The purpose of this review was to evaluate costs and benefits associated with implementing, operating, and participating with an IIS. The speed of technology change has had an effect on costs and benefits of IIS and is considered in this review.

## CiteSeerX — Economic Review of Immunization Information ...

A review of existing literature on immunization financing in 1998 indicated that little information existed to guide donors, ministries of health and finance, and NIP managers in improving management and efficiency of immunization programmes, or to develop more effective strategies for the costing and financing of all aspects of immunization services.

## Economics of immunization: a guide to the literature and ...

While vaccination is generally regarded to be one of the most cost-effective interventions in public health, the introduction and sustained use of any new vaccine needs to be supported by decision-makers who appreciate the full potential economic benefits that result. 1 - 5 This paper focuses on the economic benefits of the vaccinations given, against 10 diseases, in 73 low- and middle ...

WHO | Estimated economic impact of vaccinations in 73 low ...

WHO has developed this guide for economists, health service researchers, immunization programme staff at national level and agencies to meet the need of evidence-based decision making with reliable and consistent economic information. This is a clear and concise guidance emphasizing on what to do, rather than how to do it. The second edition of this guide has updates per methodological developments in the vaccines and economics world since the publication of edition one.

## WHO | WHO Guide on Standardization of Economic Evaluations ...

ThinkWell completed a systematic review on the cost of delivering vaccines across different low- and middle-income countries and through a variety of vaccine delivery strategies. From the compiled evidence, ThinkWell developed the Immunization Delivery Cost Catalogue (IDCC) – the most comprehensive, current, and standardized global evidence – and companion products to help interpret the evidence.

## About ICAN – ImmunizationEconomics.org

## Designing and implementing an immunisation information system

While in developing countries lack of access to vaccination and family characteristics such as low education, literacy and socio-economic status make up the majority of reasons why children are not vaccinated, in developed countries parents make conscious decisions not to use readily available vaccines. Understanding how to encourage uptake is an important public health aim.

## A systematic review of factors affecting vaccine uptake in ...

The Immunization Economics SIG provides a forum for an exchange of relevant research methods and practices, as well as disseminate results to a broader audience. In addition, the SIG will cultivate new researcher interest in the area of vaccine economics, and leverage lessons learned from other priority health issues.

## Immunization Economics - International Health Economics ...

Immunisation saves lives. It protects you, your family and your community. Immunisation helps protect future generations by eradicating diseases. Many infectious diseases are rare or eradicated now as a result of immunisation programs, but new infectious diseases are appearing around the world.

## Why immunisation is important - Better Health Channel

articles were appraised. However, due to the limited quality and quantity of published economic studies addressing the research question; articles were included in the review providing they contained, as a minimum, some potentially relevant cost or resource use data. A total of 10 articles were included in the health economics review.

## Review of the evidence of the effectiveness and cost ..

Despite improvements in immunization coverage during the 1990s, national immunization rates for 2 year olds and older adults have not yet reached the public health objective of 90 percent coverage. Although state-level rates in Illinois and Michigan are generally equivalent to the U.S. national average, substantial variation in coverage rates occurs between states as well as within each state.
