Dynamic Pricing Of Perishable Assets

Dynamic Pricing of Perishable Assets under Competition Guillermo Gallego IEOR Department, Columbia University, New York, NY 10027, gmg2@columbia.edu Ming Hu Rotman School of Management, University of Toronto, Toronto, ON M5S3E6, Canada, ming.hu@rotman.utoronto.ca

Dynamic Pricing of Perishable Assets under Competition

Abstract. We study dynamic price competition in an oligopolistic market with a mix of substitutable and complementary perishable assets. Each firm has a fixed initial stock of items and competes in setting prices to sell them over a finite sales horizon. Customers sequentially arrive at the market, make a purchase choice, and then leave immediately with some likelihood of no purchase.

Dynamic Pricing of Perishable Assets Under Competition ...

Abstract. We consider a dynamic pricing model for selling a given stock of a perishable product over a finite time horizon. Customers, whose reservation price distribution changes over time, arrive according to a nonhomogeneous Poisson process. We show that at any given time, the optimal price decreases with inventory.

Optimal Dynamic Pricing for Perishable Assets with ...

Perishable asset revenue management with time-dependent ...

Dynamic Pricing of Perishable Assets under Competition: A ...

Abstract. We consider a continuous time dynamic pricing problem for selling a given number of items over a finite or infinite time horizon. The demand is price sensitive and follows a non-homogeneous Poisson process. We formulate this problem as to maximize the expected discounted revenue and obtain the structural properties of the optimal revenue function and optimal price policy by the Hamilton-Jacobi-Bellman (HJB) equation.

Ann Oper Res (2015) 226:397-416 DOI 10.1007/s10479-014-1671-x Joint dynamic pricing and investment strategy for perishable foods with price-quality dependent demand

Joint dynamic pricing and investment strategy for ...

Any asset that loses value over time is perishable Examples: high-tech products such as computers and cell phones, high fashion apparel, underutilized capacity, fruits and vegetables Two basic approaches: - Dynamic Pricing: Vary price over time to maximize expected revenue - Overbooking: Overbook sales of the asset to account for cancellations

Chapter 15: Pricing and the Revenue Management

The nature of hotel rooms as a perishable asset is prompting hoteliers to maximize their revenue by trying to achieve optimal dynamic prices using different strategies. Conversely, customers can strategically change their purchase plans in order to pay as little as possible. In this context, heterogeneity among hotels and customers plays a key role.

Dynamic pricing strategies: Evidence from European hotels

We examine three types of dynamic pricing schemes: the dynamic nonuniform pricing (DNP) scheme, the dynamic uniform pricing (DUP) scheme, and the dynamic block pricing (DBP) scheme. For DNP scheme, we have identified a necessary and sufficient condition for the structural properties of optimal policy.

Dynamic Pricing for Perishable Assets and Multiunit Demand

Read Book Dynamic Pricing Of Perishable Assets Under Competition the effects of how the author can assume the readers from each word written in the book. appropriately this record is unconditionally needed to read, even step by step, it will be therefore useful for you and your life.
