Range trading the Forex market. 3/12/2018. Comments. Range trading can be defined as a trading style that aims to profit from those market situations when the price is moving sideways. The main argument behind this style of trading rests on the fact that the price practically spends most of the time moving sideways and thus the main idea in range trading is to find some type of a range in the market and look to sell at the top and buy at the bottom of that range.
