Transition And Economics Politics Markets

Economic research in transition shows not only that institutions matter but also how their evolution toward higher efficiency depends on initial conditions and on sustained political support. Unlike early policy literature on transition economics, which focused on the so-called Washington consensus, this book provides an overview of current research, analyzing issues raised by transition for which economic theorists and policy makers had no ready answers.

A transition economy or transitional economy is an economy which is changing from a centrally planned economy to a market economy. Transition economies undergo a set of structural transformations intended to develop market-based institutions. These include economic liberalization, where prices are set by market forces rather than by a central planning organization. In addition to this trade barriers are removed, there is a push to privatize state-owned enterprises and resources, state and collec
