Fundamentals of Biochemistry: Life at the Molecular Level ...

Biochemistry, as the name implies, is the chemistry of living organisms. Living organisms, whether they are microorganisms, plants or animals are basically made up of the same chemical components. Biochemistry is the study of the way in which these components are synthesized and utilized by the organisms in their life processes.

Fundamentals of Biochemistry - AgriMoon

Fundamentals of Biochemistry challenges readers to learn the chemical concepts that underlie both classical biochemical theory as well as the latest developments in the field. The third edition combines authoritative biochemical content with an accessible narrative and pedagogic style that greatly enhances learning.
