To determine the

density you need the volume and the mass since . You know the mass (40 g), but the volume is not given. To find the volume, use the formula for the volume of a box.
 $\text{volume} = \text{length} \times \text{width} \times \text{height}$. The volume of the cube is $2\text{cm} \times 2\text{cm} \times 2\text{cm} = 8\text{cm}^3$. The density then is the mass divided by the volume:
