### **Communication for Health and Behavior Change: A Developing ...**

Social and behavior change communication, often also only "BCC" or

"Communication for Development (C4D)" is an interactive process of any intervention with individuals, group or community to develop communication strategies to promote positive behaviors which are appropriate to their settings and thereby solving the world's most pressing health problems. This in turn provides a supportive environment which will enable people to initiate, sustain and maintain positive and desirable behavior outco

### **Social and behavior change communication - Wikipedia**

The Health Communication for Life (HC4L) project supports the Government of Malawi's efforts to increase public demand for quality, sustainable, priority health services and products. The project works to expand citizens' motivation, opportunity and ability to use these resources, while building the capacity of the government and key institutional partners to support national social and behavioral change communication programming.

### **Health Communication for Life | FHI 360**

Different types of communication behavior. There are four different types of communication behavior: aggressive, assertive, passive, and passive-aggressive. Aggressive. Aggression is defined as an unplanned act of anger in which the aggressor intends to hurt someone or something. Aggressive communicators typically create avoidable conflict by engaging in personal attacks and put-downs.

### **Behavioral communication - Wikipedia**

These social determinants include factors such as knowledge, attitudes,

norms and cultural practices. Social and behavior change communication programs (SBCC) use the most powerful and fundamental human interaction – communication – to positively influence these social dimensions of health and well-being.

**Effective Social and Behavior  
Change Communication ...**

Social and behavior change communication (SBCC) is a research-based, consultative process that uses communication strategies to facilitate change with the aim of improving health outcomes. SBCC is guided by a comprehensive ecological theory that incorporates both individual level change and change at broader environmental and structural levels.
