I am delighted to endorse this version of Skills in Gestalt Counselling and Psychotherapy. Having kept their original two versions close by for many years, both as a therapist and as a trainer, this new edition continues to confirm what I already believe about the authors' rich and scholarly theoretical and practical response to the challenges and experience of Gestalt practise.

In Gestalt therapy, the therapist is to work on the "how" of the person's experience. Not the "why". They want to understand how the patient faces problems and how he lives with them. How he feels them and internalizes them. To do so, we must make space to identify what his emotions and current sensations are.

We elicit this information by saying things like, “tell me what you are feeling”, “tell me where you are feeling it”, “explain to me what you can see in right now”.

5 Gestalt Techniques For Personal Growth - Exploring your mind

When it comes to Gestalt Therapy, your therapist may have you engage in body work. Your therapist may recommend you get physically active, dance, or do another form of movement in addition to their therapy sessions with you. This has been very effective in helping patients find balance and wholeness.
