A dirty chain will sound gritty and crunchy. Inspect brake pads front and rear. Most pads have grooves in them, and you should see daylight looking through those grooves when looking from the top of the bike down through the brake pads. If your pads are so worn there are no grooves visible, they need to be replaced.

Identifying the type of bicycle you have can be a difficult task. If it has two wheels, an upright seat, a pair of handlebars and pedals, it is probably either a mountain bike, a road bike, a sport bike, or a special combination of the three. Mountain bikes generally have larger, heavier frames with wide, knobby tires.
