About Competition Laws, Globalization and Legal Pluralism Building upon a theoretical framework and empirical research, this book provides a thought-provoking analysis of the interests, strategies and challenges that China has faced in developing its Anti-Monopoly Law (AML) in the context of economic globalization.

Competition Laws, Globalization and Legal Pluralism: China ...

Global competition now shapes economies and societies in ways unimaginable only a few years ago, and competition (or 'antitrust') law is a key component of the legal framework for global competition. These laws are

intended to protect competition from distortion and restraint, and on the national level they reflect the relationships between markets, their participants, and those affected by them.

Global Competition: Law, Markets, And Globalization ...

This book examines the relationship between law and economic globalization. It focuses on national and international efforts to protect the competitive process, exploring the critically important relationships between those two domains and the way the resulting system shapes economic activity in all parts of the world.
