Alain Badiou's magnum opus *Being and Event* opens with the claim that 'mathematics is ontology'. Much of his philosophical work from the 1980's until today consists of a profound reexamination of the conceptual field of classical philosophical ontology with the aid of contemporary mathematics. This

Alain Badiou | The New Press

Badiou constantly re-

establishes the state and the count-for-one by unfolding each Event into a new situation. This is a way of 'saving' transcendence from the subversive power of immanence, by channelling immanence into a widened field which remains transcendent. Indeed, Badiou sometimes uses explicitly transcendental terms – the Event is the 'transcendentally discontinuous', for ...
