This book and its companion Re-Zoom are simply wonderful. Not only is the quality of the illustration first class, but the idea of zooming (almost endlessly) in and out of a picture is superbly done. It's full of surprises (I wont post spoilers) - suffice it to say that just as you think you've worked out what the picture is, the next level of zoom turns it on its head.

### **Zoom (Picture Puffin Books) by Istvan Banyai (9780140557749)**

Zoom was recommended to me as a profound book of surprise transformations that I as an adult artist would find fascinating. It is in fact a child's picture book drawn in an illustration style from the 1930's or 40's that shows transformations a small child might find surprising, but which most adults will find banal, expected, arbitrary, and limited by the chosen drawing medium and style.
