As quoted by Scott

Jurisprudence of
Clarence Thomas, the

from the apocalyptic

bizarre. An almost
hilarious example of
the latter is the late

Jurisprudence, or legal
theory, is the
theoretical study of
law. Scholars of
jurisprudence seek to
explain the nature of
law in its most general
form and provide a
deeper understanding
of legal reasoning,
legal systems, legal
institutions, and the
role of law in society.
Modern jurisprudence
began in the 18th
century and was

focused on the first principles of natural law, civil law, and the law of nations.

Answer: The law (or principle or rule) of first mention is a guideline that some people use for studying Scripture. The law of first mention says that, to understand a particular

word or doctrine, we must find the first place in Scripture that word or doctrine is revealed and study that passage. The reasoning is that the Bible's first mention of a concept is the simplest and clearest presentation; doctrines are then more fully developed on that foundation.
