Introducing Windows 10 for IT Professionals *Microsoft Press*

Get a head start evaluating Windows 10—with technical insights from award-winning journalist and Windows expert Ed Bott. This guide introduces new features and capabilities, providing a practical, high-level overview for IT professionals ready to begin deployment planning now. This edition was written after the release of Windows 10 version 1511 in November 2015 and includes all of its enterprise-focused features. The goal of this book is to help you sort out what's new in Windows 10, with a

special emphasis on features that are different from the Windows versions you and your organization are using today, starting with an overview of the operating system, describing the many changes to the user experience, and diving deep into deployment and management tools where it's necessary.

Troubleshooting & Maintaining PCs All-in-One For Dummies *John Wiley & Sons*

Show your PC who's boss Nothing's more annoying than a tech malfunction, especially when it's your PC—with the exception of perhaps wading through reams of random, unreliable theories online looking for a solution, or paying an expensive tech geek to show up to perform a five-minute fix. The latest

edition of Troubleshooting & Maintaining Your PC All-in-One For Dummies puts all this frustration behind you and gets you straight to work solving the problem yourself! In his straightforward, friendly style, Dan Gookin—bestselling tech author and all-round Mr. Fixit—packs everything you need to know into 5-books-in-1, giving you the knowledge and process to hit on the right solution, fast. From identifying common problems to methodically narrowing down to the correct fix, you'll save hours of frustrating research—and experience the sweet, righteous satisfaction of having achieved it all yourself. Pick up quick fixes Understand and reconnect networks Restore memory Boost your PC's performance Every problem has a solution and PCs are no different: get

this book and you'll never catch yourself shouting at your monitor or frustrated with the motherboard again—well, maybe not quite so often.

CBD For Dummies *John Wiley & Sons*

An informative, easy-to-understand resource that unveils the mysteries of CBD CBD has emerged as a popular

health product, but what's all the fuss about? *CBD For Dummies* reveals the reasons for the surge in interest about cannabidiol (CBD) and explains how to buy and use this remarkable product safely and responsibly. In an accessible, no-nonsense manner, author Blair Lauren Brown lays out the facts about CBD and outlines the many health conditions that may be helped by using CBD oil. This book covers topics that people new to CBD have questions about. Highlights include: What CBD oil is and how it works in the body How to buy CBD from a reputable source and understanding a product's potency Knowing what conditions can be eased with CBD, including muscle pain, inflammation, autoimmune conditions, eating disorders, mental health

disorders, and neurological conditions Preparing your own CBD edibles Perfect for anyone interested in understanding the therapeutic potential of CBD, *CBD For Dummies* introduces you to everything you need to know about this cool compound.

Resilience For Dummies *John Wiley & Sons*

What doesn't kill you makes you stronger! Activate your natural ability to thrive with *Resilience For Dummies* Stress, anxiety, and exhaustion are all-too-common features of our crazy-paced, curveball-throwing contemporary existence, and it's sometimes hard to see how we can make it from one week to the next intact. But there's a solution to the struggle: resilience! In *Resilience*

For Dummies, Dr. Eva Selhub—former Harvard Medical School instructor and director of the Benson Henry Institute for Mind Body Medicine at the Massachusetts General Hospital for six years—outlines the proven steps we can all take toward optimal resilience to build healthier, more purposeful, and increasingly joyful lives. The six pillars of resilience are: physical vitality, emotional equilibrium, mental toughness and clarity, spiritual purpose, healthy personal relationships, and being an inspiring leader and part of a wider community or team. Dr. Selhub explains why each of these foundations is crucial to flourishing, how fortifying them gives us a base for attacking stress, hardship, and failure head-on, and how this confrontation then develops the strength

we need for transformative change within our personal and professional lives. Know how genetics, education, and culture contribute to resilience Avoid learned helplessness and the victim mindset Harmonize stress and make it work for you Clear negative emotions and find your bliss Build up your physical, mental, and spiritual muscles Dr. Selhub's six pillars of resilience show you how to channel your inner strength, face down whatever trouble comes your way, and come out thriving on the other side.

APA Style & Citations For Dummies *John Wiley & Sons*

Write right in for scholarly success While world-renowned for the precision and clarity it lends to scholarly writing,

keeping track of APA style's exacting standards can be demanding (at times even excruciating!) for initiates and seasoned writers alike. Created and governed by the American Psychological Association, it provides a universal style for formatting, citations, and footnotes in psychological research, behavioral and social science journals, and beyond. Getting up to speed is tough stuff, but once you've got it, your work will have that easy-to-follow scholarly authority that will get high marks from your professors and peers alike. Your friendly, frustration-free guide for this adventure in simplifying APA style is Joe Giampalmi, who has taught more than 100 APA-style composition courses to college students. He takes the pain of following APA style away by breaking it down to its essential

elements and focusing on the important stuff students encounter most. You'll work through specific, real-life examples of using APA style for psychology, criminology, business, and nursing papers. In addition to demystifying the intricacies of formatting and citation, *APA Style & Citations For Dummies* has got you covered in all matters of grammar and punctuation—as well as guidance on how APA style can help you negotiate issues around the ethics of authorship and the importance of word choice in reducing bias. Develop conciseness and clarity Pay attention to flow, structure, and logic in your writing Know when, why, how, and what to cite Keep your writing ethically conscious and bias-free Writing in APA style is something that almost all students will

need to do at some point: *APA Style & Citations For Dummies* is a must-have desk reference to know how to win the approval of your professors—and earn the marks you need for success!

Alexa For Dummies *John Wiley & Sons*

Make your every wish Alexa's command with this in-depth guide to the wildly popular Amazon smart speaker. You might be thinking, "All I have to do is plug in my Echo device and start using it!" And you'd be right. But if you really want to explore what that compact little device can do, then *Alexa For Dummies* is your go-to resource. This book shows you how to customize your device to respond to your requests and enhance your life. *Alexa For Dummies* takes you on a tour of all things Alexa: its

capabilities, tools, settings, and skills. Go beyond the basics of playing music, calling friends, reading the news, and checking the weather. You'll learn how to make Alexa private and secure, connect it to your smart home devices, and even make it sound like Samuel L. Jackson, if you feel like it. You can also extend its capabilities by adding new skills. Customize your device to respond to your voice. Troubleshoot when a light is signaling something's wrong. Add skills to play music and audiobooks. Create routines to turn on lights, adjust the thermostat, set your security alarm, and lock your doors. Sync your smart devices throughout your home. Use Alexa to connect to a Zoom meeting or phone call with your friends or family. No matter which device you have—Echo, Echo Dot,

Echo Show, Echo Studio, Echo Flex, Echo Loop, Echo Buds, or Echo Frames—Alexa For Dummies is the perfect companion. Ready to get started? Say “Hey, Alexa, order Alexa For Dummies!”

Excel Data Analysis For Dummies

John Wiley & Sons

Turn jumbles of numbers into graphics, insights, and answers with Excel With Microsoft Excel, you can, well, excel at data analysis. And Excel Data Analysis For Dummies can help, with clear and easy explanations of the mountain of features for creating, visualizing, and analyzing data. PivotTables, charts, what-if analysis, statistical functions—it's all in here, with examples and ideas for Excel users of all skill levels. This latest edition covers the most recent updates

to Excel and Microsoft 365. You'll beef up your data skills and learn powerful techniques for turning numbers into knowledge. For students, researchers, and business professionals, Excel is the spreadsheet and data application of choice—and Dummies is the best choice for learning how to make those numbers sing. Learn how to use Excel's built-in data analysis features and write your own functions to explore patterns in your data. Create striking charts and visualizations, and discover multiple ways to tell the stories hidden in the numbers. Clean up large datasets and identify statistical operations that will answer your questions. Perform financial calculations, database operations, and more—without leaving Excel. Excel Data Analysis For Dummies is the go-to

resource for Excel users who are looking for better ways to crunch the numbers.

Corporate Finance For Dummies *John Wiley & Sons*

Get a handle on one of the most powerful forces in the world today with this straightforward, no-jargon guide to corporate finance. A firm grasp of the fundamentals of corporate finance can help explain and predict the behavior of businesses and businesspeople. And, with the right help from us, it's not that hard to learn! In *Corporate Finance For Dummies*, an expert finance professor with experience in everything from small business to large, public corporations walks you through the basics of the subject. You'll find out how to read corporate financial statements, manage

risks and investments, understand mergers and acquisitions, and value corporate assets. In this book, you will also: Get a plain-English introduction to the financial concepts, instruments, definitions, and strategies that govern corporate finance. Learn how to value a wide variety of instruments, from physical assets to intangible property, bonds, equities, and derivatives. Explore the intricacies of financial statements, including the balance sheet, income statement, and statement of cash flows. Perfect for students in introductory corporate finance classes looking for an easy-to-follow supplementary resource, *Corporate Finance For Dummies*, delivers intuitive instruction combined with real-world examples that will give you the head start you need to get a grip

on everything from the cost of capital to debt analytics, corporate bonds, derivatives, and more.

Wills & Trusts Kit For Dummies *John Wiley & Sons*

Enjoy peace of mind knowing that your assets will pass to your family according to your wishes. Regardless of your age or income, writing a legal will is one of the greatest gifts you can give your family. But where do you begin? *Wills & Trusts Kit For Dummies* walks you through the most important considerations to have in mind when you're deciding what will happen to your estate when you're gone. Writing a will or setting up a trust isn't as fun as binge watching the latest hot web series, but this book makes the task a little less daunting. Find out who

needs a will or trust (spoiler alert: everyone!), when you should create one, and how to take the first steps. Handy online content includes practical worksheets, forms, and templates that simplify and explain the process of estate planning in language that doesn't require a legal education to understand. With the help of *Wills & Trusts Kit For Dummies*, you'll have a document that details your final wishes before you know it. Navigate probate, tax, and state laws that govern how property is passed to the next generation. Avoid the most common estate planning pitfalls and mistakes. Choose qualified professionals and specialists to help you make the best decisions for your family. Designate a guardian for your children and plan for their financial needs. You deserve to

know that your loved ones will be properly taken care of when you're no longer with them. *Wills & Trusts Kit For Dummies* delivers straightforward guidance and peace of mind on a subject that, sooner or later, we all must face.

Property Management Kit For Dummies *John Wiley & Sons*

Before you put that FOR RENT sign in the yard, read this Hello there, future landlord. You've found what you're looking for—a complete package of information and resources to teach you what you need to know and make your life (and your tenants' lives) easier. With *Property Management Kit For Dummies*, you can learn how to manage single-family homes, large apartment buildings, treehouses, dollhouses... okay, there's

not much info here on managing dollhouses, but everything else is definitely covered. Find good tenants, move them in, and keep them happy and paying rent on time. When it comes time for a change, learn how to move tenants out and turn over the property, easy as pie. This book makes it simple to understand tax and insurance requirements, building maintenance concerns, and financial record keeping. Plus, the updated edition reflects the current rental property boom, new technologies, changes to the law, and the inside scoop on the latest Fair Housing issues to keep you out of court. Emotional support animals? Rent control? Bed bugs? Eviction? It's all in here. Find out whether property management is right for you, learn what

you need to get started, and be successful as your residential rental property portfolio grows. Get your ducks in a row—develop solid marketing and advertising strategies and resources, build up-to-date rental contracts, figure out the legal side of things, and minimize your income and property tax bills. Make sure you're renting to responsible people, and deal with the occasional problem tenant without major drama. Maximize your cash flow by keeping your rents at market prices, efficiently handling maintenance, and ensuring your property has great curb appeal with the features and benefits sought by today's tenants. Become a top-notch property manager with this one-and-done reference, plus online bonus materials.

Excel Formulas & Functions For Dummies *John Wiley & Sons*

Unlock the power of Excel with a step-by-step roadmap to its formulas and functions. There's a Swiss Army knife in your digital toolbox that can multiply your productivity and make you the smartest guy or gal in almost any room. It's called Microsoft Excel. If you're like most people, you've barely scratched the surface of what this powerful tool's hundreds of built-in functions can do. But with a little help from *Excel Formulas & Functions For Dummies*, you'll soon be organizing, analyzing, and interpreting data like a pro. For those who don't know the difference between a spreadsheet and a bedsheet, the book gets you up to speed with formula and function basics first. But you can also skip ahead to the

fancy stuff and learn about working with probabilities, significance tests, and lookup functions. This easy-to-use Excel formulas and functions survival guide shows you how to: Work with financial functions like PMT, PPMT, NPER, RATE, and PV Calculate mean, median, mode, standard deviation, and many more statistical functions Troubleshoot formulas for common errors and validate your data to avoid mistakes Work with dates, times, logic operators, conditions, and basic and advanced mathematical functions You don't need a degree in data science or advanced mathematics to take advantage of the full functionality and flexibility of Microsoft Excel. Let Excel Formulas & Functions For Dummies show you how to transform this unassuming program into the most

useful tool in your toolbox.

Old New Thing

Practical Development Throughout the Evolution of Windows, The Addison-Wesley Professional

"Raymond Chen is the original raconteur of Windows." --Scott Hanselman, ComputerZen.com "Raymond has been at Microsoft for many years and has seen many nuances of Windows that others could only ever hope to get a

glimpse of. With this book, Raymond shares his knowledge, experience, and anecdotal stories, allowing all of us to get a better understanding of the operating system that affects millions of people every day. This book has something for everyone, is a casual read, and I highly recommend it!" --Jeffrey Richter, Author/Consultant, Cofounder of Wintellect "Very interesting read. Raymond tells the inside story of why Windows is the way it is." --Eric Gunnerson, Program Manager, Microsoft Corporation "Absolutely essential reading for understanding the history of Windows, its intricacies and quirks, and why they came about." --Matt Pietrek, MSDN Magazine's Under the Hood Columnist "Raymond Chen has become something of a legend in the software

industry, and in this book you'll discover why. From his high-level reminiscences on the design of the Windows Start button to his low-level discussions of GlobalAlloc that only your inner-geek could love, *The Old New Thing* is a captivating collection of anecdotes that will help you to truly appreciate the difficulty inherent in designing and writing quality software." --Stephen Toub, Technical Editor, MSDN Magazine

Why does Windows work the way it does? Why is Shut Down on the Start menu? (And why is there a Start button, anyway?) How can I tap into the dialog loop? Why does the `GetWindowText` function behave so strangely? Why are registry files called "hives"? Many of Windows' quirks have perfectly logical explanations, rooted in history.

Understand them, and you'll be more productive and a lot less frustrated. Raymond Chen--who's spent more than a decade on Microsoft's Windows development team--reveals the "hidden Windows" you need to know. Chen's engaging style, deep insight, and thoughtful humor have made him one of the world's premier technology bloggers. Here he brings together behind-the-scenes explanations, invaluable technical advice, and illuminating anecdotes that bring Windows to life--and help you make the most of it. A few of the things you'll find inside: What vending machines can teach you about effective user interfaces A deeper understanding of window and dialog management Why performance optimization can be so counterintuitive A

peek at the underbelly of COM objects
and the Visual C++ compiler Key details
about backwards compatibility--what

Windows does and why Windows
program security holes most developers
don't know about How to make your
program a better Windows citizen
