However, the 19th edition of Barron’s GRE does a relatively better job at the reading comprehension question types and they definitely are much close to what you can expect to see on the test day. Then on the Math section again I don’t see many questions that would really challenge someone who is aiming for a really good GRE score.

I just tried out Barron’s 19th edition New GRE. While the prep material is pretty good, I’d like to caution against the use of their included CD-Rom which contains 2 additional full-length tests. The tests are filled with errors: wrong passage on the verbal side, missing diagram on the math side, and atrocious grading logic where the right answers were occasionally marked as wrong.
