In the north and north west of Norfolk, the rivers Burn, Glaven, Mun and Stiffkey, all chalk-fed, flow into the Wash or directly into the North Sea. Why should we protect and restore our rivers? A well-functioning river system requires good water quality, distinctive physical processes, and a diverse array of fauna and flora.

River Trent - Wikipedia

North River is an alternative name for the southernmost portion of the Hudson River in the vicinity of New York City and northeastern New Jersey in the United States. The entire watercourse was known as the North River by the Dutch in the early seventeenth century; the term fell out of general use for most of the river's 300+ mile course during the early 1900s. However the name remains in very limited use as an artifact among history-inclined local mariners and others and on some nautical charts
