First Insights Into Business

Workbook

First Insights into Business is a pre-intermediate course for adult learners of Business English. The workbook provides further support and contains additional practise material correlating to material presented in the Students' book.

Insect Ecology

Behavior, Populations and Communities *Cambridge University Press*

Combining breadth of coverage with detail, this logical and cohesive introduction to insect ecology couples concepts with a broad range of examples and practical applications. It explores cutting-edge topics in the field, drawing on and highlighting the links between theory and the latest empirical studies. The sections are structured around a series of key topics, including behavioral ecology; species interactions; population ecology; food webs, communities and ecosystems; and broad patterns in nature. Chapters progress logically from the small scale to the large; from individual species through to species interactions, populations and communities. Application sections at the end of each chapter outline the practicality of ecological concepts and show how ecological information and concepts can be useful in agriculture, horticulture and forestry. Each chapter ends with a summary, providing a brief recap, followed by a set of questions and discussion topics designed to encourage independent and creative thinking.

The Mechanics and Chemistry of Landscapes *Cambridge University Press*

Modern, quantitative, process-oriented approach to geomorphology and the role of Earth surface processes in shaping landforms, starting from basic principles.

Fightin' Gators

A History of the University of Florida Football *Arcadia Publishing*

The University of Florida, the state's oldest and largest university, is recognized today as one of the country's most academically diverse public institutions. Though able to trace its history to 1853, the school did not begin its popular football program until the first few years of the 20th century. The program has had its share of scandals and embarrassments over time, but it has also produced two Heisman Trophy winners, a national champion, numerous players drafted into the professional ranks, and a visibility that consistently ranks the team in the top five in the country. Now attracting 85,000 fans to each of its home games, the Gators' football program has become a vital part of the University of Florida. When the team won the national championship in 1996, no one could have predicted such success just 90 years earlier. Fortunately, that fascinating journey

through the last century has been captured in great photographs that include formal portraits of teams; action shots on the field; views of "The Swamp"; and snapshots of fans from every decade. These images tell the story of the birth and growth of a football team, a team that has brought enjoyment to millions and national recognition to the University of Florida.

English File Intermediate Student's Book

"Just when you thought it couldn't get any better!" A new edition of the best-selling English File - the best way to get your students talking. Insight Advanced Students Book (Ministry Approved) (Poland)

Compact First for Schools Student's Book with Answers with CD-ROM *Cambridge University Press*

"The course is designed to maximise the performance of school-age learners. It features eight units covering the core topics, vocabulary, grammar and skills needed for all four exam papers for the revised Cambridge English: First (FCE) for Schools exam from 2015. Two teen-inspired topics in each unit ensure the entire exam syllabus is covered, and can also act as a basis for CLIL-based extension activities and projects. Grammar sections and a Grammar Reference help students build up the accurate language structure necessary for the Use of English parts of the new Reading and Use of English paper, while B2-level vocabulary is targeted, drawing on insights from English Profile, and brought together in a Wordlist based on key vocabulary from the units. 'Exam tips', and grammar and vocabulary exercises teach students to avoid common mistakes identified in Cambridge's unique collection of real exam papers, the Cambridge Learner Corpus."--Publisher description.

First Insights Into Business

Teacher's book

First Insights into Business is a pre-intermediate course for adult learners of Business English. The teacher's book outlines the rationale for the course. It provides information on the units, photocopiable test materials, and a workbook answer key.

Ancient Egyptian Medicine *University of Oklahoma Press*

The skills of the ancient Egyptians in preserving bodies through mummification are well known, but their expertise in the

everyday medical practices needed to treat the living is less familiar and often misinterpreted. John F. Nunn draws on his own experience as an eminent doctor of medicine and an Egyptologist to reassess the evidence. He has translated and reviewed the original Egyptian medical papyri and has reconsidered other sources of information, including skeletons, mummies, statues, tomb paintings and coffins. Illustrations highlight symptoms of similar conditions in patients ancient and modern, and the criteria by which the Egyptian doctors made their diagnoses - many still valid today - are evaluated in the light of current medical knowledge. In addition, an appendix listing all known named doctors contains previously unpublished additions from newly translated texts. Spells and incantations and the relationship of magic and religion to medical practice are also explored. Incorporating the most recent insights of modern medicine and Egyptology, the result is the most comprehensive and authoritative general book to be published on this fascinating subject for many years.

Face2face Pre-intermediate Student's Book with DVD-ROM
Cambridge University Press

face2face Second edition is the flexible, easy-to-teach, 6-level course (A1 to C1) for busy teachers who want to get their adult and young adult learners to communicate with confidence.

DMT: The Spirit Molecule

A Doctor's Revolutionary Research into the Biology of Near-Death and Mystical Experiences *Simon and Schuster*

A clinical psychiatrist explores the effects of DMT, one of the most powerful psychedelics known. • A behind-the-scenes look at the cutting edge of psychedelic research. • Provides a unique scientific explanation for the phenomenon of alien abduction experiences. From 1990 to 1995 Dr. Rick Strassman conducted U.S. Government-approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT, one of the most powerful psychedelics known. His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics. DMT, a plant-derived chemical found in the psychedelic Amazon brew, ayahuasca, is also manufactured by the human brain. In Strassman's volunteers, it consistently produced near-death and mystical experiences. Many reported convincing encounters with intelligent nonhuman presences, aliens, angels, and spirits. Nearly all felt that the sessions were among the most profound experiences of their lives. Strassman's research connects DMT with the pineal gland, considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul. DMT: The Spirit Molecule makes the bold case that DMT, naturally released by the pineal gland, facilitates the soul's movement in and out of the body and is an integral part of the birth and death experiences, as well as the highest states of meditation and even sexual transcendence. Strassman also believes that "alien abduction experiences" are brought on by accidental releases of DMT. If used wisely, DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical regions of the human mind and soul.

B1

An exciting and intensive skills based course which focuses on themes from contemporary teen culture

Computational Methods for Geodynamics *Cambridge University Press*

Written as both a textbook and a handy reference, this text deliberately avoids complex mathematics assuming only basic familiarity with geodynamic theory and calculus. Here, the authors have brought together the key numerical techniques for geodynamic modeling, demonstrations of how to solve problems including lithospheric deformation, mantle convection and the geodynamo. Building from a discussion of the fundamental principles of mathematical and numerical modeling, the text moves into critical examinations of each of the different techniques before concluding with a detailed analysis of specific geodynamic applications. Key differences between methods and their respective limitations are also discussed - showing readers when and how to apply a particular method in order to produce the most accurate results. This is an essential text for advanced courses on numerical and computational modeling in geodynamics and geophysics, and an invaluable resource for researchers looking to master cutting-edge techniques. Links to supplementary computer codes are available online.

Infographics, Grade 4 *Carson-Dellosa Publishing*

Present facts in a visually engaging, cross-curricular learning format to help students quickly and easily comprehend information. Infographics for grade 4 provides language arts- and math-based questions related to social studies and science topics such as adaptations, the Supreme Court, and more. Infographics for grade 4 offers a time-saving, cross-curricular solution that supports 21st century learning. Filled with full-color visuals, Infographics for grade 4 illustrates essential facts and appeals to learners. The engaging infographics in this book help students successfully comprehend a large amount of data and answer corresponding questions. With a variety of high-interest science and social studies topics, these infographics are perfect to use individually for skill review or as an instructional resource. Students will learn to use a variety of nonfiction text features such as headings, diagrams, maps, sidebars, time lines, graphs, and more. The Ready to Go: Infographics series for kindergarten to grade 5 combines math, language arts, science, and social studies into one convenient resource. Students will study infographics on a variety of science and social studies topics and use them to answer related math and language arts questions. The high-interest topics and full-color visuals keep students engaged in practicing valuable skills, from computation to using text features. This all-in-one series supports academic growth through concept application and enhanced critical thinking skills.

How Finding Your Passion Changes Everything *Penguin UK*

The groundbreaking international bestseller that will help you fulfil your true potential. The Element is the point at which natural talent meets personal passion. In this hugely influential book, world-renowned creativity expert Ken Robinson considers the child bored in class, the disillusioned employee and those of us who feel frustrated but can't quite explain why - and shows how we all need to reach our Element. Through the stories of people like Vidal Sassoon, Arianna Huffington and Matt Groening, who have recognized their unique talents and made a successful living doing what they love, Robinson explains how every one of us can find ourselves in our Element, and achieve everything we're capable of. With a wry sense of humour, Ken Robinson shows the urgent need to enhance creativity and innovation by thinking differently about ourselves. Above all, he inspires us to reconnect with our true self - it could just change everything. 'The

Element offers life-altering insights about the discovery of your true best self' Stephen R. Covey, author of The 7 Habits of Highly Effective People 'A book that lightens and lifts the minds and hearts of all who read it' Susan Jeffers, author of Feel the Fear and Do It Anyway
