Sebald was one of the most extraordinary and influential writers of the twentieth century. Early Christian Art and Architecture

An Introduction *Scm Press*

The early Christian period, especially the time between the third and sixth centuries, is one of the most fascinating in church history. The Christianity which developed into a state church in the Roman empire during the fourth century gave new content to traditional Graeco-Roman art and adapted it to changed needs. Different forms of churches, monasteries and baptisms came into being, as did Christian art in paintings, mosaics and sculptures; biblical manuscripts were illustrated and liturgical furnishings and vessels were given new form. Here for the first time in a single volume is an account of architecture sacred and profane, funerary art in catacombs and tombs and especially sarcophagi, the graphic arts and the various forms of art in miniature. The text is illustrated with numerous line drawings and photographs, including ground plans and elevations of churches, actual and conjectural, and there are full descriptions of the art and architecture discussed against its social and historical background. In addition there are full bibliographies and details of the most important collections of Christian art. This will prove not only an invaluable work

for art historians but also a guide for those travelling in the Mediterranean area and an indication of the riches of the first centuries of the church. Guntram Koch is Professor of Christian Archaeology and the History of Byzantine Art in the University of Marburg.

The CIA in Hollywood

How the Agency Shapes Film and Television *University of Texas Press*

"Jenkins's book raises serious ethical and legal questions about the relationship between the CIA and Hollywood and the extent to which we consume propaganda from one through the other. . . . Should the CIA be authorized to target American public opinion? If our artists don't confront [the question] more directly, and soon, the Agency will only continue to infiltrate our vulnerable film and television screens—and our minds." —Tom Hayden, Los Angeles Review of Books "The book makes a strong case that the CIA should not be in Hollywood at all, but that if it is, it cannot pick and choose which movies it wishes to support. Well written and researched, this study examines a subject that has not received enough scholarly or critical attention. Highly recommended." —Choice "A fascinating, highly readable, and original new work. . . . Incorporating effective, illustrative case studies, The CIA in Hollywood is definitely recommended to students of film, media relations, the CIA, and U.S. interagency relations." —H-Net Reviews
