Timing Belt Replacement Interval Guide

Your timing belt should be replaced every 50,000–70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.
