Toward A Sustainable Whaling

Regime

The international regime for regulating whaling is a mess. The International Convention for the Regulation of Whaling (ICRW), the regime's main legal instrument, calls for sustainable management of whaling to "make possible the orderly development of the whaling industry." Yet most members favor extinction of the industry.

To deal with these risks, a Drone Accountability Regime is needed that imposes obligations on states, which in turn would be required to impose them on their agents. Since it would be infeasible to negotiate a treaty-based legal regime at present and for the foreseeable future, the Drone Accountability Regime should be informal and should involve transnational actors as well as states.
