In a manual transmission car you will select the right type of gear for your journey, changing where necessary throughout. An automatic car does what it says on the tin, in that it selects the right type of gear for you in relation to your speed and the road conditions.

Manual vs. Automatic Car Transmission: Which is Best?

How Manual vs. Automatic Transmissions Work When you're driving a car with a manual transmission, such as a sports car or vintage vehicle, you use the stick shift on the car's console or steering column to maneuver between transmission gears, while simultaneously using your left foot to depress the clutch pedal.

Manual Transmission Vs Automatic Power

Automatic transmissions require regular fluid changes and have a filter that needs to be replaced. That's because a traditional automatic transmission with a torque converter has slippage and relatively high fluid operating temperature with normal use. This degrades the fluid much more quickly than in a manual transmission.

10 Reasons a Manual Transmission is Better than an Automatic

Transmissions do not produce torque or horsepower, they convert it. A manual transmission USUALLY handles torque better than automatics. That is why most heavy duty diesel rigs are manual (diesels are torque monsters). 954 views
