Force And Motion Word Search Puzzle

A force is a push or a pull on an object that is caused by an interaction with another object. Forces influence objects that are at rest or that are already in motion. Isaac Newton's three laws of motion describe how forces interact with objects to influence motion. These laws involve inertia, mass, velocity, and momentum.

Science A-Z Force & Motion Grades 5-6 Physical Science Unit

Forces are at work all around us and act in pairs against one another. Forces make things move and make them stop. Some forces are very strong, and some are so weak you can't feel them at all. Friction is the force that causes moving things to slow down. Gravity is the force that makes things fall to the ground instead of falling up or sideways.
