As it says in the subtitle, it explains "the art and science of creating great presentations" in a clear and simple way. The text is direct and engaging, sometimes employs a little humour, and the use of case studies, showing principles in action, is an inspired touch that adds an extra dimension to what would otherwise be a well-written, but theoretical text.

At some point we need to stop seeing ourselves as creating art, but realize that we are instead creating ourselves as an artist. After all, why are we creating all of this art in the first place? We are confusing the process with the product. Our artwork is the by-product of the creative learning process, not the goal itself.
