This section presents relevant definitions as

Teaching and learning English in a multilingual classroom

Language planning is a deliberate effort to influence the function, structure or acquisition of languages or language varieties within a speech community. Robert L. Cooper defines language planning as "the activity of preparing a normative orthography, grammar, and dictionary for the guidance of writers and speakers in a non-homogeneous speech community". Along with language ideology and language practices, language planning is part of language policy - a typology drawn from Bernard Spolsky ...

Decisions around language policy and planning are made around the globe

every day, both formally by governments and informally by scholars and community leaders. These decisions influence the right to use and maintain languages, affect language status, and determine which languages are nurtured. Language policy and planning decisions have a major impact on language vitality and, ultimately, on the rights of the individual.

Language Planning & Policy - CAL

For instance, language teachers have to be ready to develop practices that aim at dealing with multilingualism and plurilingualism on multiple levels (e.g., syllabi policies, individual learners) and to various degrees (e.g., develop a general understanding, develop specific techniques for dealing with multilingual

literacies). Language teachers faced with the challenge of multilingualism and plurilingual repertoires can no longer draw on single resources like bringing in materials in a ...
