The International Financial System Policy

The International Monetary Fund (the IMF or the Fund) was created at the end of World War II to administer a system of fixed exchange rates, to oversee the international financial system, to provide short-term balance of payments assistance, and to prevent a recurrence of the autarkic policies of the 1920s and 1930s. When the fixed-rate system ended in the 1970s, the Fund was seen as the provider of additional global public goods.

International Financial System - an overview ...

As a general introduction to the international financial system and its regulation; as a powerful critique of the current system's imperfections; and most of all as a viable overarching scheme for an international finance law framework soundly based on what history has taught us, *International Financial System: Policy and Regulation* shows the way to amending a system that repeatedly sacrifices the lives of thousands and compromises the future of millions.
