Criminal Justice Research in an Era of Mass Mobility *Routledge*

We live in an era of mass mobility where governments remain committed to closing borders, engaging with securitisation discourses and restrictive immigration policies, which in turn nurture xenophobia and racism. It is within this wider context of social and political unrest that the contributors of this collection reflect on their experiences of conducting criminological research. This collection focuses on the challenges of doing research on the intersections between criminal justice and immigration control, choosing and changing methodologies while juggling the disciplinary and interdisciplinary requirements of the work's audience. From research design, to fieldwork to writing-up, this book captures every part of the research process, drawing on a range of topics such as migration control, immigrant detention and border policing. It also reflects on more neglected areas such as the interpersonal and institutional contexts of research and the ontological and epistemological assumptions embedded within data analysis methods. It makes a significant contribution to our understanding of the major developments in current research in this field, how and why they occur and with what consequences. This book seeks to shake off the phantom of undisturbed research settings by bringing to the fore the researchers' involvement in the research process and its products. An interdisciplinary collection, it can be used as a reference not just for those interested in the criminology of mobility but also as a learning tool for anyone conducting research on a highly charged topic in contemporary policy and politics.

Criminology in Brief

Understanding Crime and Criminal Justice *Routledge*

This book offers a short and accessible introduction to criminology. Written in a clear and direct style, criminological theories are made more accessible for undergraduates, and the workings of the criminal justice system are explained. Students will learn not only how the criminal justice system works, but also how it does not work. Beyond introducing students to the basics, the book provides a persuasive argument that the criminal justice system we have in the United States comes nowhere close to our ideals for justice, doing little good in terms of crime control, while doing great harm to minorities and the poor. Engaging and far-ranging, this text offers a condensed approach to the key themes and debates surrounding crime and justice, and covers definitions and measurements of crime, criminological theories, crime typologies, and contemporary issues in the criminal justice system. It includes chapters on: Criminological Methods and Data Biological, Psychological, and Classical Theories of Crime Sociological Theories of Crime Patterns of Crime The Police The Courts Corrections and the American Prison System Written by an experienced textbook author, this book offers a critical approach to the subjects discussed and draws on topical examples such as Black Lives Matter, the militarization of the police, plea bargaining and the War on Drugs. It is essential reading for Criminology courses within a Sociology Major and will also be of

interest to Criminal Justice majors, law students, policymakers, and informed citizens.
