What If This Is Heaven?

How Our Cultural Myths Prevent Us from Experiencing

Heaven on Earth *Hay House, Inc*

If life is about the journey and not the destination, could it be that this is heaven—this physical life we are living here on Earth? What we experience in our daily lives often feels like anything but heaven. But what if we understood how powerful we are—that we are powerful enough to mold both our internal and our external reality? Anita Moorjani, the New York Times bestselling author of *Dying to Be Me*, is convinced we can do exactly that. The process, she explains, requires dismantling many cultural myths mistaken for indisputable truths. Beliefs such as "We get what we deserve,"

"Loving ourselves is selfish," and "Coincidences are just that—coincidences," are ingrained within us from birth, pervasive and influential, leading to generations of misguidance. Following her near-death experience, Moorjani began to embody truths she learned in the other realm, discovering that letting go of these outmoded myths allowed her to experience heaven not as a physical place but as a state of mind, right here and right now. In this examination of our common myths, she shares stories and examples from her own life, revealing the lies beneath the surface of what she was taught and absorbed. By freeing ourselves from these falsehoods,

Moorjani asserts, we can leave fear, heartache, and self-imposed boundaries behind and instead live lives full of purpose and joy.

Sensitive Is the New Strong

The Power of Empaths in an Increasingly Harsh World *Simon and Schuster*

The New York Times bestselling author of *Dying to Be Me* returns with “a gorgeous and powerful field guide to the empath living in today’s wild world” (Laura Berman, PhD, author of *Quantum*

Love) and how they can fully embrace their gifts of intuition and empathy. Empaths not only sense other people’s emotions, but also absorb them—sometimes to their own disadvantage, often leading to overwhelming sensory overload and feelings of confusion or low self-esteem. Their willingness to help and please others might make them prey to opportunists or cause them to give away more energy than they can afford. But Anita Moorjani argues that it’s possible to turn this onslaught of emotional burden into a powerful tool. In a time when traits like sensitivity, kindness, and compassion are sorely undervalued, Moorjani helps

empaths—whether emerging or acknowledged—navigate obstacles they may face and identify what makes them unique. She teaches them how to claim their true powers as empaths and to be their most authentic selves. “Sensitive Is the New Strong is a book that provides you with groundbreaking information, tools, and exercises in understanding the challenges faced by empaths. You can learn how to protect your energy and thrive. A definite must-read for empaths and their loved ones” (Nick Ortner, New York Times bestselling author).

Dying to Know You

A Novel ABRAMS

A teenager discovers his voice in this contemporary love story from "one of young adult literature's greatest living writers" (Booklist). Shy teenager Karl is desperately in love with his girlfriend, Fiorella, a literary enthusiast who's asked him to write her a letter in which he reveals his true self. There's just one problem . . . Karl is dyslexic. Convinced

that his attempts to express himself with words will end in disaster, Karl tracks down Fiorella's favorite novelist and begs him to take up the task. The famous writer unexpectedly agrees, but on one condition: Karl must participate in a series of interviews so the author can pen an authentic portrait of his affections. What follows is a series of misunderstandings, a startling revelation, and an unusual bond that will change all three of their lives. A moving story of love and friendship, *Dying to Know You* is the perfect novel for "that cloudy expanse between older teenager and younger adult, a novel that doesn't pretend to advise, but merely sees its characters for

who they really are" (The Guardian). "This quietly understated performance captures the wistfulness of music in a minor key."

Whole Brain Living

**The Anatomy of
Choice and the Four
Characters That
Drive Our Life** *Hay
House, Inc*

The New York Times
best-selling author of
My Stroke of Insight
blends neuroanatomy
with psychology to
show how we can
short-circuit emotional
reactivity and find our
way to peace. For half
a century we have
been trained to believe
that our right brain
hemisphere is our
emotional brain, while
our left brain houses
our rational thinking.

Now neuroscience shows that it's not that simple: in fact, our emotional limbic tissue is evenly divided between our two hemispheres.

Consequently, each hemisphere has both an emotional brain and a thinking brain. In this groundbreaking new book, Dr. Jill Bolte Taylor presents these four distinct modules of cells as four characters that make up who we are: Character 1, Left Thinking; Character 2, Left Emotion; Character 3, Right Emotion; and Character 4, Right Thinking. Everything we think, feel, or do is dependent upon brain cells to perform that function. Since each of the Four Characters stems from specific groups of cells that feel unique inside of our

body, they each display particular skills, feel specific emotions, or think distinctive thoughts. In *Whole Brain Living*, Dr. Taylor shows us how to get acquainted with our own Four Characters, observe how they show up in our daily life, and learn to identify and relate to them in others as well. And she introduces a practice called the Brain Huddle--a tool for bringing our Four Characters into conversation with one another so we can tap their respective strengths and choose which one to embody in any situation. The more we become familiar with each of the characters in ourselves and others, the more power we gain over our thoughts, our feelings, our

relationships, and our lives. Indeed, we discover that we have the power to choose who and how we want to be in every moment. And when our Four Characters work together and balance one another as a whole brain, we gain a radical new road map to deep inner peace.

Things I've Learned from Dying

A Book About Life *Twelve*

"Every life is different, but every death is the same. We live with others. We die alone." In his riveting, artfully written memoir *The Autobiography of an Execution*, David Dow enraptured readers with a searing and frank exploration of his work defending inmates on death row. But when Dow's father-in-law receives his own death sentence in the form of terminal cancer, and his gentle dog Winona suffers acute liver failure, the author is forced to reconcile with death in a far more personal

way, both as a son and as a father. Told through the disparate lenses of the legal battles he's spent a career fighting, and the intimate confrontations with death each family faces at home, *THINGS I'VE LEARNED FROM DYING* offers a poignant and lyrical account of how illness and loss can ravage a family. Full of grace and intelligence, Dow offers readers hope without cliché and reaffirms our basic human needs for acceptance and love by giving voice to the anguish we all face--as parents, as children, as partners, as friends--when our loved ones die tragically, and far too soon.

The Old is Dying and the New Cannot Be Born

From Progressive Neoliberalism to Trump and Beyond *Verso Books*

Neoliberalism is fracturing, but what will emerge in its wake? The global political, ecological, economic, and social breakdown—symbolized by Trump's election—has destroyed faith that neoliberal capitalism is

beneficial to the majority. Nancy Fraser explores how this faith was built through the late twentieth century by balancing two central tenets: recognition (who deserves rights) and distribution (who deserves income). When these begin to fray, new forms of outsider populist politics emerge on the left and the right. These, Fraser argues, are symptoms of the larger crisis of hegemony for neoliberalism, a moment when, as Gramsci had it, "the old is dying and the new cannot be born." In an accompanying interview with Jacobin publisher Bhaskar Sunkara, Fraser argues that we now have the opportunity to build progressive populism

into an emancipatory social force.

**What the Dead are
Dying to Teach Us**
Watkins Media Limited

A fresh and thoroughly modern take on Afterlife

communication. Claire Broad is known as the Honest Medium, in *What the Dead are Trying to Teach* Claire shares invaluable insights into life after death gained through her own experience, whilst also drawing on the most up-to-date scientific studies on

consciousness. As a young child, Claire experienced psychic phenomena, as she grew older her experiences and the communications she received became stronger, resulting in Spirit teachers making their presence known and guiding her. Naturally analytical and now an adult, Claire was forced to question the validity of her experiences against the common academic opinion surrounding survival after physical death and embarked upon a life long quest for the truth. In her refreshingly down to earth, honest and open manner, Claire shares personal stories to bring comfort and hope to many whilst highlighting findings from consciousness

studies that challenge our understanding of the world and encourage us to consider our true nature and full potential. Claire teaches us why we may have confidence there is life after death, how we can heal and awaken spiritually through the therapeutic practice of mediumship and most importantly what we can learn from those already on the other side in order to make the most of this life whilst we are here. By the end of this compelling book, readers will have an understanding that we all have a natural connection to the spirit world and will have gained tips and tools to deepen this connection; that death is an illusion; that our

loved ones can visit us after their passing and that we can learn to recognise the signs; that genuine mediumship is a therapeutic practice and why visiting a medium is nothing to be feared; that spirit guides gently support us all; that it is natural for a child to display psychic ability and what you can do to support a child that does; that there is scientific research to support the validity of mediumship and psychic ability and that it is possible to seek evidence for survival as well as keeping faith.

The Craft of Dying, 40th Anniversary Edition

The Modern Face of Death *MIT Press*

The fortieth-anniversary edition of a classic and prescient work on death and dying. Much of today's literature on end-of-life issues overlooks the importance of 1970s social movements in shaping our understanding of death, dying, and the dead body. This anniversary edition of Lyn Lofland's *The Craft of Dying* begins to repair this omission. Lofland identifies, critiques, and theorizes 1970s death movements, including the Death Acceptance Movement, the Death with Dignity Movement, and the Natural Death

movement. All these groups attempted to transform death into a "positive experience," anticipating much of today's death and dying activism. Lofland turns a sociologist's eye on the era's increased interest in death, considering, among other things, the components of the modern "face of death" and the "craft of dying," the construction of a dying role or identity by those who are dying, and the constraints on their freedom to do this. Lofland wrote just before the AIDS epidemic transformed the landscape of death and dying in the West; many of the trends she identified became the building blocks of AIDS activism in the 1980s and 1990s. *The Craft of Dying* will help readers

understand contemporary death social movements' historical relationships to questions of race, class, gender, and sexuality and is a book that everyone interested in end-of-life politics should read.

Dying to Be Alive

Xlibris Corporation

Dying to be Alive is the first hand account of an incredible experience. In 2008 the author suffered a heart attack and found himself in an ambulance, blacking out and in immediate danger of death. He describes the experience of being in the presence of angels, engaged in conversation with Jesus and then being offered the choice to return to life on earth or to continue living in

heaven. The story does not stop there. He traces the intervention of God on his life as he recounts the journey through life that saw him threatened by a cult and suffering the death of his brain-injured daughter. This is a story of life and death that extends well beyond our routine earthly existence and offers an intriguing glimpse into the timeless realm of eternity. This book offers more than a story. It opens the way to an encounter with heaven that reaches from beyond this world deep into the heart and soul.

Dying to Get High

Marijuana as Medicine *NYU Press*

Dying to Get High with Susie Bright on Boing Boing! Warring Wines; 'You Want to Fight?'; Nurse Mary Jane in Santa Cruz High Times interviews the authors Alternet excerpt of the book ("How Pot Became Demonized") Discussion from the Santa Cruz Metro Marijuana as medicine has been a politically charged topic in this country for more than three decades. Despite overwhelming public

support and growing scientific evidence of its therapeutic effects (relief of the nausea caused by chemotherapy for cancer and AIDS, control over seizures or spasticity caused by epilepsy or MS, and relief from chronic and acute pain, to name a few), the drug remains illegal under federal law. In *Dying to Get High*, noted sociologist Wendy Chapkis and Richard J. Webb investigate one community of seriously-ill patients fighting the federal government for the right to use physician-recommended marijuana. Based in Santa Cruz, California, the Wo/Men's Alliance for Medical Marijuana (WAMM) is a unique patient-caregiver cooperative providing marijuana free of charge to mostly terminally ill members. For a brief period in 2004, it even operated the only legal non-governmental medical marijuana garden in the country, protected by the federal courts against the DEA. Using as their stage this fascinating profile of one remarkable organization, Chapkis and Webb tackle the broader, complex history of medical marijuana in America. Through compelling interviews with patients, public officials, law enforcement officers and physicians, Chapkis and Webb ask what distinguishes a legitimate patient from an illegitimate pothead, good drugs from bad, medicinal effects from just

getting high. *Dying to Get High* combines abstract argument and the messier terrain of how people actually live, suffer and die, and offers a moving account of what is at stake in ongoing debates over the legalization of medical marijuana.

Accidental Presidents

Eight Men Who Changed America

Simon & Schuster

This New York Times bestselling “deep dive into the terms of eight former presidents is chock-full of political hijinks—and déjà vu” (*Vanity Fair*) and provides a fascinating look at the men who came to the office without being elected to it, showing how each affected the nation and world. The strength and prestige of the American presidency has waxed and waned since George Washington. Eight men

have succeeded to the presidency when the incumbent died in office. In one way or another they vastly changed our history. Only Theodore Roosevelt would have been elected in his own right. Only TR, Truman, Coolidge, and LBJ were re-elected. John Tyler succeeded William Henry Harrison who died 30 days into his term. He was kicked out of his party and became the first president threatened with impeachment. Millard Fillmore succeeded esteemed General Zachary Taylor. He immediately sacked the entire cabinet and delayed an inevitable Civil War by standing with Henry Clay’s compromise of 1850. Andrew Johnson, who succeeded our greatest president,

sided with remnants of the Confederacy in Reconstruction. Chester Arthur, the embodiment of the spoils system, was so reviled as James Garfield's successor that he had to defend himself against plotting Garfield's assassination; but he reformed the civil service. Theodore Roosevelt broke up the trusts. Calvin Coolidge silently cooled down the Harding scandals and preserved the White House for the Republican Herbert Hoover and the Great Depression. Harry Truman surprised everybody when he succeeded the great FDR and proved an able and accomplished president. Lyndon B. Johnson was named to deliver Texas electorally. He led the

nation forward on Civil Rights but failed on Vietnam. Accidental Presidents shows that "history unfolds in death as well as in life" (The Wall Street Journal) and adds immeasurably to our understanding of the power and limits of the American presidency in critical times.

Dying to Live

How Near Death Experiences Transform Our Faith

In 2009 author Nigel Mumford was stricken with H1N1 Swine Flu. He was in a coma for three weeks, and in the ICU for three months as his organs shut down and his body hurtled towards death. During the evening of October 23, the doctors believed they had done all they could

do for their dying, comatose patient. Then he died and went to Heaven. The author recounts his actual experiences of visiting Heaven several times while in a coma, and describes how his life has changed in amazing ways. This book looks into the mystery of faith and the power of prayer during a journey through the valley of the shadow of death. Mumford had five visions of Heaven while in the coma, and all are described in this powerful journey into death and back again. Dying to Live brings a message of hope in the face of certain medical death and disenchantment. Mumford's personal experiences of near death are eloquently captured by St. Paul,

who said, "I know a man in Christ who fourteen years ago was caught up to the third heaven. Whether it was in the body or out of the body I do not know--God knows."
