Edition Five of MBoC continues the line of quality initiated by Edition One. It presents an almost encyclopedic approach to up-to-date coverage of cell biology and in doing so just happens to also provide reasonably complete coverage of

biochemistry and molecular biology. It reflects the concept that modern biology is all molecular.

Molecular biology of the cell, 5th edition by B. Alberts ...

Cell and Molecular Biology gives students the tools they need to understand the science behind cell biology. Karp explores core concepts in considerable depth, and presents experimental detail when it helps to explain and reinforce the concept being explained. This fifth edition continues to offer an exceedingly clear presentation and excellent art program, both of which have received high praise in prior editions.
