Sonar X1 Reference Guide - is.occupy- saarland.de

X1 is a new step in direction for Sonar and Scott G. is helping us once again with this hefty update in his Sonar Power series. I like the format which makes it easy on the eyes and the brain. It reads more like a guy talking to you through a complicated process and not a disjointed reference manual.

The workflow changed

from Sonar 8.5 to the X series and Scott shows how you can make the most of custom presets and VST lists to give you the most time to making and editing music. I have Sonar X1, X2 and now X3 Power, all written by Scott. They are all on my shelf for quick reference, as plug-ins and other modes of the program have changed.
