The Evil That Men Do *Black Swan*

Born of a preoccupation with saints and sinners, *The Evil That Men Do* is Brian Masters' investigation into the nature of good and evil, and the different ways in which they can be manifested. It examines the fundamental questions of why we are as we are: why we are good, why we care for one another, why we can be altruistic and kind as well as selfish and cruel. According to science, we are prisoners of our genetic inheritance. Are our impulses therefore to some extent inescapable, compelling us to behave in a certain manner, irrespective of the guidelines imposed by instinct or civilization? Or can we determine our individual patterns of behaviour? Do we really have a choice? Using a diverse multitude of examples, from St. Francis of Assisi, Audrey Hepburn, Bruce Chatwin and Bob Geldof to the Marquis de Sade, Adolf Hitler and Peter Sutcliffe, from the Spanish Inquisition to Nazi Germany to the Vietnam War, Brian Masters examines this age-old yet intensely contemporary subject. At a time when civilization seems on the verge of meltdown, he has produced an incisive, thoughtful and provocative meditation on a fundamental human question.

Résistance

A Woman's Journal of Struggle and Defiance in Occupied France *Bloomsbury Publishing USA*

Agnès Humbert was an art historian in Paris during the German occupation in 1940. Stirred to action by the atrocities she witnessed, she joined forces with several colleagues to form an

organized resistance—very likely the first such group to fight back against the occupation. (In fact, their newsletter, *Résistance*, gave the French Resistance its name.) In the throes of their struggle for freedom, the members of Humbert's group were betrayed to the Gestapo; Humbert herself was imprisoned. In immediate, electrifying detail, Humbert describes her resistance against the Nazis, her time in prison, and the horrors she endured in a string of German labor camps, always retaining—in spite of everything—hope for herself, for her friends, and for humanity. Originally published in France in 1946, the book is now translated into English for the first time.

Shroud *Vintage*

One part Nietzsche, one part Humbert Humbert, and a soupçon of Milton's *Lucifer*, Axel Vander, the dizzyingly unreliable narrator of John Banville's masterful new novel, is very old, recently widowed, and the bearer of a fearsome reputation as a literary dandy and bully. A product of the Old World, he is also an escapee from its conflagrations, with the wounds to prove it. And everything about him is a lie. Now those lies have been unraveled by a mysterious young woman whom Vander calls "Miss Nemesis." They are to meet in Turin, a city best known for its enigmatic shroud. Is her purpose to destroy Vander or to save him—or simply to show him what lies beneath the shroud in which he has wrapped his life? A splendidly moving exploration of identity, duplicity, and desire, *Shroud* is Banville's most rapturous performance to date.

Thirty-nine natives have recently dropped dead of mysterious causes. Given the tense relationship between the Awana tribe and the white townsfolk nearby, Pará's sole government-sponsored advocate for the native population, Jade Calmon, immediately suspects foul play and takes the two remaining Awana—a father and his eight-year-old son—into her custody. But when the father is discovered holding a bloody machete next to the body of a village big shot, just before Silva's arrival, the plot thickens. Why would a peaceful man who doesn't believe in alcohol turn into a drunken killer?

Stages of Evil

Occultism in Western Theater and Drama *University Press of Kentucky*

"The evil that men do" has been chronicled for thousands of years on the European stage, and perhaps nowhere else is human fear of our own evil more detailed than in its personifications in theater. By examining examples of alchemy, astronomy, demonology, exorcism, fairies, vampires, witchcraft, hauntings,

and voodoo in prominent plays, *Stages of Evil* explores American and European perceptions of occultism from medieval times to the modern age.

The Evil that Men Do

A Natural History of Rape

Biological Bases of Sexual Coercion *MIT Press*

A biologist and an anthropologist use evolutionary biology to explain the causes and inform the prevention of rape. In this controversial book, Randy Thornhill and Craig Palmer use evolutionary biology to explain the causes of rape and to recommend new approaches to its prevention. According to Thornhill and Palmer, evolved adaptation of some sort gives rise to rape; the main evolutionary question is whether rape is an adaptation itself or a by-product of other adaptations. Regardless of the answer, Thornhill and Palmer note, rape circumvents a central feature of women's reproductive strategy: mate choice. This is a primary reason why rape is devastating to its victims, especially young women. Thornhill and Palmer address, and claim to demolish scientifically, many myths about rape bred by social science theory over the past twenty-five years. The popular contention that rapists are not motivated by sexual desire is, they argue, scientifically inaccurate. Although they argue that rape is biological, Thornhill and Palmer do not view it as inevitable. Their recommendations for rape prevention include teaching young males not to rape, punishing rape more severely, and studying the effectiveness of "chemical castration." They also recommend that young women consider the biological causes of rape when making decisions about dress, appearance, and social activities. Rape could cease to exist, they argue, only in a society knowledgeable about its evolutionary causes. The book includes a useful summary of evolutionary theory and a comparison of evolutionary biology's and social science's explanations of human

behavior. The authors argue for the greater explanatory power and practical usefulness of evolutionary biology. The book is sure to stir up discussion both on the specific topic of rape and on the larger issues of how we understand and influence human behavior.

The Lucifer Effect

Understanding How Good People Turn Evil *Random House Trade Paperbacks*

The definitive firsthand account of the groundbreaking research of Philip Zimbardo—the basis for the award-winning film *The Stanford Prison Experiment*—Renowned social psychologist and creator of the Stanford Prison Experiment Philip Zimbardo explores the mechanisms that make good people do bad things, how moral people can be seduced into acting immorally, and what this says about the line separating good from evil. *The Lucifer Effect* explains how—and the myriad reasons why—we are all susceptible to the lure of “the dark side.” Drawing on examples from history as well as his own trailblazing research, Zimbardo details how situational forces and group dynamics can work in concert to make monsters out of decent men and women. Here, for the first time and in detail, Zimbardo tells the full story of the Stanford Prison Experiment, the landmark study in which a group of college-student volunteers was randomly divided into “guards” and “inmates” and then placed in a mock prison environment. Within a week the study was abandoned, as ordinary college students were transformed into either brutal, sadistic guards or emotionally broken prisoners. By illuminating the psychological causes behind such disturbing metamorphoses, Zimbardo enables us to better understand a variety of harrowing phenomena, from corporate malfeasance to organized genocide to how once upstanding American soldiers came to abuse and torture Iraqi detainees in Abu Ghraib. He replaces the long-held notion of the “bad apple” with that of the “bad barrel”—the idea that the social setting and the system contaminate the individual, rather than the other way around. This is a book that dares to

hold a mirror up to mankind, showing us that we might not be who we think we are. While forcing us to reexamine what we are capable of doing when caught up in the crucible of behavioral dynamics, though, Zimbardo also offers hope. We are capable of resisting evil, he argues, and can even teach ourselves to act heroically. Like Hannah Arendt's Eichmann in Jerusalem and Steven Pinker's *The Blank Slate*, *The Lucifer Effect* is a shocking, engrossing study that will change the way we view human behavior. Praise for *The Lucifer Effect* "The Lucifer Effect will change forever the way you think about why we behave the way we do—and, in particular, about the human potential for evil. This is a disturbing book, but one that has never been more necessary."—Malcolm Gladwell "An important book . . . All politicians and social commentators . . . should read this."—The Times (London) "Powerful . . . an extraordinarily valuable addition to the literature of the psychology of violence or 'evil.'"—The American Prospect "Penetrating . . . Combining a dense but readable and often engrossing exposition of social psychology research with an impassioned moral seriousness, Zimbardo challenges readers to look beyond glib denunciations of evil-doers and ponder our collective responsibility for the world's ills."—Publishers Weekly "A sprawling discussion . . . Zimbardo couples a thorough narrative of the Stanford Prison Experiment with an analysis of the social dynamics of the Abu Ghraib prison in Iraq."—Booklist "Zimbardo bottled evil in a laboratory. The lessons he learned show us our dark nature but also fill us with hope if we heed their counsel. *The Lucifer Effect* reads like a novel."—Anthony Pratkanis, Ph.D., professor emeritus of psychology, University of California

Spider-Man / Black Cat

The Evil That Men Do *Marvel*

"[O]riginally published in magazine form as Spider-Man/Black Cat: the evil men do, #1-6." -- p. [2] of cover.

The Evil Good Men Do *Black House Publishing*

A FEW years ago Jeffrey Hamm published his memoirs. He told why, as a very young man living in a badly misgoverned country in the early thirties, he joined Oswald Mosley and British Union. His reason was hope, hope that a brilliant man with a vision for the future which was perfectly valid at that time, could lead Britain out of the deep morass into which it had floundered since the end of the First World War. In "The Evil Good Men Do" Jeffrey Hamm takes a look over the past and reflects on some of the disastrous political decisions that have been made by 'old party' politicians who were motivated only by the 'Will to Power' and 'Will to Comfort' rather than the 'Will to Achievement' which was so necessary to advance the true quality of life in both Britain and Europe. It is published at one of the important turning-points of history. A huge question mark hangs over Europe and the world. Far from being the century of the common man, we live in the century when only the uncommon man has much to offer. The truth of these words is daily evident. We are obliged to live in the world our capricious rulers have undemocratically made for us. We can still hope, because we have the luck to belong to a country and a continent of unusual ability. The ideal of Europe a Nation can be striven for. It is a truly great ideal, and a beacon of hope for new generations. And the virtue of loyalty is as

important as ever it was, loyalty to a transcendent idea. Jeffrey Hamm, as will be seen by readers of this book, understands this very well. Diana Mosley, Orsay, France.

Border Crossing

A Novel *Farrar, Straus and Giroux*

Soon to Be a Major Motion Picture Set in the north of England, Pat Barker's *Border Crossing* portrays a child psychiatrist who rescues a man from drowning one day while walking on a beach in Northumberland. Uncannily, he recognizes the man; it's Danny Miller, a child murderer at whose trial he once gave evidence. Since the trial, he has reconsidered that evidence and found it lacking. Now he confronts the man whose altered fate may be his responsibility.

The Evil that Men Do

Lord of the Flies *Penguin*

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems

as far removed from reality as the hope of being rescued.

The Evil that Men Do

Dark Dreams

A Legendary FBI Profiler Examines Homicide and the Criminal Mind *St. Martin's Press*

The *Evil That Men Do* introduced readers to the lifework and the techniques of FBI profiler Roy Hazelwood. Now, in *Dark Dreams*, Hazelwood-- writing with bestselling author Stephen G. Michaud-- will take them deep into the minds of his prey, the world's most dangerous sexual criminals, and reveal the extent to which these individuals permeate our society. Profiler Roy Hazelwood is one of the world's leading experts on the strangest and most dangerous of all aberrant offenders-- the sexual criminal. In *Dark Dreams* he reveals the twisted motive and thinking that go into the most reprehensible crimes. He also catalogs the innovative and remarkably effective techniques-- investigative approaches that he helped pioneer at the FBI's Behavioral Science Unit-- that allow law enforcement agents to construct psychological profiles of the offenders who commit these crimes. Hazelwood has helped track down some of the most violent and well-known criminals in modern history; in *Dark Dreams* he takes readers into his world-- a sinister world inhabited by scores of dangerous offenders for every Roy Hazelwood who would put them behind bars: * A young woman disappears from the convenience store where she

works. Her skeletonized remains are found in a field, near a torture device. Who committed this heinous crime? And why? * A teenager's body is found hanging in a storm sewer. His clothes are neatly folded by the entrance and a stopwatch is found in his mouth. Is he the victim of a bizarre, ritualistic murder...or an elaborate masturbatory fantasy gone awry? * A married couple, driving with their toddler in the backseat, pick up a female hitchhiker. They kidnap her and for seven years keep her as a sexual slave. The wife agreed to this inhuman arrangement in exchange for having a second child. Who was to blame? As gruesome as the crimes are and as unsettling as the odds seem, Hazelwood proves that the right amount of determination and logic can bring even the most cunning and devious criminals to justice. *Dark Dreams* is a 2002 Edgar Award Nominee for Best Fact Crime.

Becoming Evil

How Ordinary People Commit Genocide and Mass Killing *Oxford University Press*

Political or social groups wanting to commit mass murder on the basis of racial, ethnic or religious differences are never hindered by a lack of willing executioners. In *Becoming Evil*, social psychologist James Waller uncovers the internal and external factors that can lead ordinary people to commit extraordinary acts of evil. Waller debunks the common explanations for genocide- group think, psychopathology, unique cultures- and offers a more sophisticated and comprehensive psychological view of how anyone can potentially participate in heinous crimes

against humanity. He outlines the evolutionary forces that shape human nature, the individual dispositions that are more likely to engage in acts of evil, and the context of cruelty in which these extraordinary acts can emerge. Illustrative eyewitness accounts are presented at the end of each chapter. An important new look at how evil develops, *Becoming Evil* will help us understand such tragedies as the Holocaust and recent terrorist events. Waller argues that by becoming more aware of the things that lead to extraordinary evil, we will be less likely to be surprised by it and less likely to be unwitting accomplices through our passivity.

Citizenship in a Republic *Good Press*

Citizenship in a Republic is the title of a speech given by Theodore Roosevelt, former President of the United States, at the Sorbonne in Paris, France, on April 23, 1910. One notable passage from the speech is referred to as "The Man in the Arena": It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better.
