Echo in Ramadi

The Firsthand Story of US Marines in Iraq's Deadliest City *Simon and Schuster*

Ranked in the "Top 10 Military Books of 2018" by Military Times. "In war, destruction is everywhere. It eats everything around you. Sometimes it eats at you." —Major Scott Huesing, Echo Company Commander From the winter of 2006 through the spring of 2007, two-hundred-fifty Marines from Echo Company, Second Battalion, Fourth Marine Regiment fought daily in the dangerous, dense city streets of Ramadi,

Iraq during the Multi-National Forces Surge ordered by President George W. Bush. The Marines' mission: to kill or capture anti-Iraqi forces. Their experience: like being in Hell. Now Major Scott A. Huesing, the commander who led Echo Company through Ramadi, takes readers back to the streets of Ramadi in a visceral, gripping portrayal of modern urban combat. Bound together by brotherhood, honor, and the horror they faced, Echo's Marines battled day-to-day on the frontline of a totally different kind of war, without rules, built on chaos. In *Echo in Ramadi*, Huesing brings these resilient, resolute young men to life and shows how the savagery of urban combat left indelible scars on their bodies, psyches, and souls. Like war classics *We Were Soldiers*, *The Yellow Birds*, and *Generation Kill*, *Echo in Ramadi* is an unforgettable capsule of one company's experience of war that will leave readers stunned.

Lanny

A Novel *Graywolf Press*

Longlisted for the 2019 Booker Prize An entrancing new novel by the author of the prizewinning *Grief Is the Thing with Feathers* There's a village an hour from London. It's no different from many others today: one pub, one church, redbrick cottages, some public housing, and a few larger houses dotted about. Voices rise up, as they might anywhere, speaking of loving and needing and working and dying and walking the dogs. This village belongs to the people who live in it, to the land and to the land's past. It also belongs to Dead Papa Toothwort, a mythical figure local schoolchildren used to draw as green and leafy, choked by tendrils growing out of his mouth, who awakens after a glorious nap. He is listening to this twenty-first-century village, to its symphony of talk: drunken confessions, gossip traded on the street corner, fretful conversations in living rooms. He

is listening, intently, for a mischievous, ethereal boy whose parents have recently made the village their home. Lanny. With Lanny, Max Porter extends the potent and magical space he created in *Grief Is the Thing with Feathers*. This brilliant novel will ensorcell readers with its anarchic energy, with its bewitching tapestry of fabulism and domestic drama. Lanny is a ringing defense of creativity, spirit, and the generative forces that often seem under assault in the contemporary world, and it solidifies Porter's reputation as one of the most daring and sensitive writers of his generation.

The Conservative Sensibility *Hachette Books*

The Pulitzer Prize-winning columnist's "astonishing" and "enthraling" New York Times bestseller and Notable Book about how the Founders' belief in natural rights created a great American political tradition (Booklist) -- "easily one of the best books on American Conservatism ever written" (Jonah Goldberg). For more than four decades, George F. Will has attempted to discern the principles of the Western political tradition and apply them to America's civic life. Today, the stakes could hardly be higher. Vital questions about the nature of man, of rights, of equality, of majority rule are bubbling just beneath the surface of daily events in America. The Founders' vision, articulated first in the Declaration of Independence and carried out in the Constitution, gave the new republic a framework for government unique in world history. Their beliefs in natural rights, limited government, religious freedom, and in human virtue and dignity ushered in two centuries of American prosperity. Now, as Will shows, conservatism is under threat -- both from progressives and elements inside the Republican Party. America has become an administrative state, while destructive trends have overtaken family life and higher education. Semi-autonomous executive agencies wield essentially unaccountable power. Congress has failed in its duty to exercise its legislative powers. And the executive branch has slipped the Constitution's leash. In the intellectual battle between the vision of Founding

Fathers like James Madison, who advanced the notion of natural rights that pre-exist government, and the progressivism advanced by Woodrow Wilson, the Founders have been losing. It's time to reverse America's political fortunes. Expansive, intellectually thrilling, and written with the erudite wit that has made Will beloved by millions of readers, *The Conservative Sensibility* is an extraordinary new book from one of America's most celebrated political writers.
