Sirius, although the logical successor to Odd John, deals with quite another being — an alien intelligence, artificially produced, a dog with superhuman mentality, who is not only superior to his own kind, but rejected by those with whom he has most in common. Stapledon uses his powers — intellectual, imaginative, and observant — to detail the conflict in its very "human" form.

Sirius is a tale of immense tragic pathos in which Olaf Stapledon evokes the terrible loneliness of a dog born with the mind of a man. Thomas Trelone's life-work was to explore the possibilities of producing a superman by experimenting with hormone injections into various mammals. Sirius himself is infinitely the most successful of these trials.
