In order for your app to access any of our products or APIs, you must first convert your Facebook account to a Developer Account and register your app using the App Dashboard. You can do this at developers.facebook.com. Registration creates an App ID that lets us know who you are, helps us distinguish your app from other apps, and provides a way for you to supply any additional materials we may need when you set up specific products or request access to sensitive APIs.

App Development - Documentation - Facebook for Developers

The latest version is: v9.0 The Graph API is the primary way for apps to read and write to the Facebook social graph. All of our SDKs and products interact with the Graph API in some way, and our other APIs are extensions of the Graph API, so understanding how the Graph API works is crucial.

Graph API - Documentation - Facebook for Developers

Refer to our Upgrade Guide to learn how to upgrade to a new API version. Non-Versioned Changes. Non-versioned changes are changes introduced outside of our normal, versioned release schedule and typically do not apply to a specific version. Instead, non-versioned changes usually apply to all API versions immediately.
