It states the ADA will use the term "essential dental care" — defined as any care that prevents or eliminates infection and preserves

the structure and function of teeth and orofacial hard and soft tissues — in place of "emergency dental care" and "elective dental care" when communicating with legislators, regulators, policymakers and the media about care that should continue to be delivered during global pandemics or other disaster situations, if any limitations are proposed.

ADA: Dentistry is essential health care

Pest analysis and integrating social and health care.

Introduction. Most countries have moved forward to improved health care services such as integrating social and health care;

integrating social and health care refers to a situation in which all services are put under the management of a single administrative structure such as the county (Tidd, and Bessant, 2018).
