Development And Progress Of The

Progress is upward growth in economic status; however, progress is still an on-going process. Development, meanwhile, is the aftermath and the effect of progress. In development, there is a human and social factor. It measures whether how much of society benefited from the economic growth or progress. In a way, development and progress have a symbiotic or a two-way relationship.

Difference Between Progress and Development | Difference ...

Development is a process that creates growth, progress, positive change or the addition of physical, economic, environmental, social and demographic components. The purpose of development is a rise in the level and quality of life of the population, and the creation or expansion of local regional income and employment opportunities, without damaging the resources of the environment.
