where noted, be performed by qualified technicians only. Do not attempt to perform maintenance or repair work in the event of an equipment malfunction. Rather, remove the equipment from service and have it inspected or repaired by a qualified service technician. Schindler Customer Service Network (SCSN)

An Owner's Guide - Schindler Group

Hi I have inherited a Schindler 330a and there isn't much in the way of documentation, it has an intermittent block error fault and it says fatal on the screen. Then it runs for four or five hours then traps someone again with that same fault. Between floors? It looks like you may have a list of fault

codes from your answer to 500fpm.

Hello Gents, I just acquired a few temperamental 330a controllers on a new route. I have some prints but am also wondering if anybody might help with any additional info/manuals. When coming off of inspect all units take awhile for doors to come back. Everything checks out fine with no errors. I get sdoor and cdoor relays.
