Summary and reviews of The Harmony Silk Factory by Tash Aw

The Harmony Silk Factory is divided into three parts, each narrated by a different character, presenting a different perspective on events. Aw has a nice touch with the voices, and the stories related in each part are fairly compelling, but while there are secrets

that are hinted at and then revealed Aw doesn't always focus on what's most compelling, the book building up to dénouements that are, in some cases, of limited interest, while not adequately addressing the most significant questions.
