Accuphase Integrated Amplifier E 250
INTEGRATED STEREO AMPLIFIER E-250 The Accuphase E-200 series of basic integrated amplifiers enjoys an excellent reputation both in Japan and on the international stage. The E-250 represents a full model change of the E-213, featuring the new AAVA-II volume control and reflecting the latest design technology advances achieved by Accuphase.

Accuphase Laboratory, Inc. E-250
With the E-250 Accuphase is presenting the new integrated youngster. Explosive power may not be expected by hi-fi fans, but perhaps all the more a sterling sound? Actually, the new amp from Accuphase should not merely be called E-250 but should rather be decorated - next to its type designation - with a title of nobility.

It's eleven years since I reviewed the Accuphase E-213 for this magazine. That was then the entry-level integrated amplifier; the next model up the line, the E-308, was similar in rated power output but a noticeably more accomplished performer, and represented quite a significant jump in performance, back in the day. So I approached this review of the current equivalent, the E-370, with high ...

Accuphase E480 Integrated Amplifier - Doug Brady HiFi
The subject of this review is the Accuphase E-550 line-stage integrated amplifier. The phase-accurate Accuphase of Japan has been producing award-wining amplifiers since its founding in 1972, and that majestic power meter in gold chassis design has become the arresting visage of all Accuphase amplifiers shortly after. In fact, Accuphase believes that there will be adverse consequences if they ...

The E-250 uses the AAVA-II circuit for attenuation to control current, not voltage. This avoids the classic issue of impedance variations with volume setting. Below the acrylic display sit six small knobs and four switches to turn the E-250 into a system control center with many inputs and outputs. We get treble and bass controls plus balance.

The E-650 - the fifth generation of this type of product - was presented in November 2017 and is still the only Class A integrated amplifier in the Accuphase lineup. It delivers 30W per channel at 8 Ω load, 60 watts at 4 Ω and 125 watts at 2 Ω . It's a lot of power for a Class A. In fact, this amplifier should be treated a bit differently than we are used to with this type of products. It is ...

Accuphase offers two amplifier technologies, Class A/B and Class

A, with the Class A models positioned at the upper end of the product range in terms of performance and price. Until the recent introduction of the 50W E-800, the E-650 was the flagship integrated amplifier, offering a conservatively-rated 30W per channel into an 8 Ω load, doubling into 4 Ω and 2 Ω loads respectively.
