There are notable simplifications possible. Consider a system trained on a single voice or one which must work with all speakers (harder). Consider a system to recognize a small vocabulary and grammar (say digits, or telephone numbers, or dates) versus a larger language such as "business letter English" (harder).

How can we speak math? - EECS at UC Berkeley

The Oxford Handbook of the History of Mathematics-Eleanor Robson 2008-12-18 This Handbook explores the history of mathematics under a series of themes which raise new questions about what mathematics has been and what it has meant to practise it. It addresses questions of who creates mathematics, who uses it, and how. A broader understanding of mathematical practitioners naturally leads to a new appreciation of what counts as a historical source. Material and oral evidence is drawn upon as
