Adventures of a Currency Trader

A Fable about Trading, Courage, and Doing the Right Thing *John Wiley & Sons*

Praise for ADVENTURES

of a CURRENCY TRADER "A truly easy, unique, and enjoyable read! Rob has done it once again to teach us in the funniest way possible how not to make the most common trading mistakes. If you are tired of reading how-to books, this is perfect for you. I highly recommend this book to all traders. Everyone will learn something about themselves by reading this book." —Kathy Lien, author, *Day Trading the Currency Market*, and Chief Strategist, www.dailyfx.com

"Adventures of a Currency Trader is a must read for anyone who has ever traded or is thinking about trading in the Forex markets. Rob Booker has a unique way of taking years of market

knowledge and transforming it into an educational and entertaining experience. It has quickly become a cult classic in my trading library!" —H. Jack Bouroudjian, Principal, Brewer Investment Group "Brilliant! Rob's humor and humanity shine through in this parable about trading and life. Filled with wisdom and wit, it's an exhilarating rollercoaster ride through the peaks and valleys of the learning curve, with many valuable lessons learned along the way." —Ed Ponsi, President, FXEducator.com "Rob's fable of everyman 'Harry Banes' is destined to become a trading classic. This is both the missing piece and the foundation

that comes before the strategies and methodologies. The search for the Holy Grail begins and ends in the heart and mind. The journey is authentic and real and if you're willing to take it with Rob, you will be rewarded in the end. Seldom has psychology and wisdom been so entertaining!"

—Raghee Horner, trader and author of *Forex Trading for Maximum Profit and Days of Forex Trading* "In a series of insightful and entertaining vignettes, Rob Booker teaches both the novice and the experienced trader some hard won truths about the currency market. It's a must read book written by a guy who survived the trenches and went on to prosper in the

biggest and most competitive financial market in the world." —Boris Schlossberg, Senior Currency Strategist, Forex Capital Markets LLC, and author of *Technical Analysis of the Currency Market*

Forex for Beginners

CreateSpace

Forex For Beginners is the prequel to my first two books, *A Three Dimensional Approach to Forex Trading*, and *A Complete Guide to Volume Price Analysis*. It is your primer to the world of forex. It has been written to lay the foundations and provide the framework for getting started in the world of forex, in what I believe is the correct way. My other books then build on what you will learn here, to further

develop your trading skills and knowledge. What I try to do in all my books, is to show you how to apply that knowledge to help you become a more confident trader. After all, learning is all well and good, but if we are not taught how to apply that knowledge in a practical way, then it is of little use. It is the application of knowledge that empowers, and this is what I have tried to do here, and in my online training rooms, and all my books. There are of course many books about forex trading. What is different about this book, is the focus on those aspects of trading which I believe are fundamental. After all, there are only two questions we need to answer when considering a position

in the market:- What is the risk on this trade - high, medium or low? What is the financial risk on this trade? The first is the hardest question to answer, and the book will explain in detail the analysis and approach to use, in order to answer this question with confidence. The second question is more straightforward and is answered provided you have an understanding of risk, money management and position sizing in relation to your trading capital. Again, this is covered in detail in the book. As the tag line on the front cover says 'What you need to know to get started, and everything in between' which really sums up what you will learn. The book explains everything,

from the pure mechanics to the trading methodology that I advocate, and which I have used in all my own trading and investing for over 17 years. Forex For Beginners is also dedicated to all those traders who have asked me to write such an introduction, based on my knowledge and my methodology. This book is for you.

Forex Trading for Beginners & Dummies

Uncover what forex trading is, how to get started in forex trading, and how to make a trading plan. You will learn how to assess your risk and manage it appropriately in the trades you will conduct. This book is going to teach you the

do's and don'ts of forex, to help you avoid the most common mistakes traders make. Why not learn from experts who have already done things incorrectly? By learning what not to do, you have a leg up against anyone else who tries to enter the forex market without proper knowledge. The difference between profit and loss is always going to be your knowledge of how to invest in the forex market. Plenty of information is needed to help you understand how the market moves the way it does, who moves the market, and how other investors conduct market analysis. Currencies are going to be explained based on the factors that drive them to move, as well as

how to read a currency quote. The forex market is like the stock market in some respects. You have technical analysis protocols that can help you trade on trends and certain popular patterns like support and resistance. You also have fundamental factors that drive the currencies to change. Important fundamental and technical analysis strategies will be discussed to help you plan and strategize for your entry into the forex market.

Forex Essentials in 15 Trades

The Global-View.com Guide to Successful Currency Trading

John Wiley & Sons

Traders are constantly learning their craft. Those who do not share information, discuss tactics and review prior trades are doomed for failure. Global-View.com knows this. It is the leading destination for Forex traders looking to learn

and discuss trading. With over 33,000 registered users from 125 countries, Global-View.com exposes its users to an incredible base of knowledge. In this book, the authors dissect each of 15 chosen trades, using the material to expose some of the best (and worst) practices of a Forex trader. The book weaves a plethora of Global-View.com information into the detailed dissection. Each description will include how the trade was selected and why it was made, as well as money management and psychological aspects of the trade. Entertaining anecdotal stories are interspersed throughout each trade story.

Naked Forex

High-Probability Techniques for Trading Without Indicators *John Wiley & Sons*

A streamlined and highly effective approach to trading without indicators Most forex traders rely on technical analysis books written for stock, futures, and option traders. However, long before computers and calculators, traders were trading naked.

Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators Coauthor Alexander

Nekritin is the CEO and President of TradersChoiceFX, one of the largest Forex introducing brokers in the world. Naked Forex teaches traders how to profit the simple naked way!

Investing for Dummies®

ReadHowYouWant.com

Every book is written with a certain reader in mind, and this book is no different: You may have some investments, but you're looking to develop a full-scale investment plan....You'd like to strengthen your portfolio....You want to evaluate your

investment advisor's advice....You have a company-sponsored investment plan, like a 401(k), and you're looking to make some decisions or roll it over into a new plan....If one or more of these descriptions sound familiar, you've come to the right place.

Millionaire Traders

How Everyday People Are Beating Wall Street at Its Own Game *John Wiley & Sons*

Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this battle. Through interviews with twelve ordinary individuals who have worked hard to transform themselves

into extraordinary traders, *Millionaire Traders* reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders-some who focus on equities, others who deal in futures or foreign exchange-and examines the paths they've taken to capture considerable profits. With this book as your guide, you'll quickly become familiar with a variety of strategies that can be used to make money in today's financial markets. Those that will help you achieve this goal include: Tyrone Ball: trades Nasdaq stocks almost exclusively, and his ability to change

with the times has enabled him to prosper during some of the most treacherous market environments in recent history. AShkan Bolour: one of the earliest entrants into the retail forex market, he trades in the direction of the major trend, rather than trying to find reversals. Frank Law: a technician at heart, identifies a trading zone, commits to it, and scales down as long as the zone holds. Paul Willette: has mastered a method that allows him to harvest some profits right away, while ensuring that he can still benefit from an occasional extension run in his favor. Order your copy today and beat the Street.
