Tourism Employment in Nordic Countries

Trends, Practices, and Opportunities Springer Nature

Viewed through a politico-economic lens, Nordic countries share what is often referred to as the ‘Nordic model’, characterised by a comprehensive welfare state; higher spending on childcare; more equitable income distribution; and lifelong-learning policies. This edited collection considers these contexts to explore the complex nature of tourism employment, thereby providing insights into the dynamic nature, characteristics, and meaning of work in tourism. Contributors combine explorations of the impact of policy on tourism employment with a more traditional human resources management approach focusing on employment issues from an organizational perspective, such as job satisfaction, training, and retention. The text points to opportunities as well as challenges relating to issues such as the notion of ‘decent work’, the role and contribution of migrant workers, and more broadly, the varying policy objectives embedded within the Nordic welfare model. Offering a detailed, multi-faceted analysis of tourism employment, this book is a valuable resource for students, researchers and practitioners interested in tourism employment in the region.

Exploring the Use and Impact of Travel Guidebooks Channel View Publications

This volume provides the first comprehensive examination of travel guidebooks and their conceptualisation, use and impact. Guidebooks have been key tourism paraphernalia for almost two centuries and although researched in some areas, academic knowledge on guidebooks in tourism has not been expansively communicated. The uncritical, unreflective and largely pejorative approach to guidebooks in the public sphere, and to some degree also present in academia, is reassessed in this book. This challenges the current limited tourism research approaches to the topic, including the routinely held assumption that the internet has all but destroyed the printed guidebook. This book will be a useful resource for postgraduate students and researchers in tourism and tourism communications and consumption.

Hospitality Law

Managing Legal Issues in the Hospitality Industry Wiley Global Education

Hospitality Law: Managing Legal Issues in the Hospitality Industry, Fifth Edition takes an applied approach to the study of hospitality law with its touchstone of compliance and prevention. The book is highly pedagogical and includes many interactive exercises and real world cases that help students focus on the practical application of hospitality laws and model their decision process to avoid liability. As a result, this book does look different than others on the market as the legal information contained is carefully selected to specifically correlate with helping students understand how to do the right thing, i.e., it is not a comprehensive book on the laws. Barth immediately helps readers learn about the legalities of situations and work through exercises – both individually and in groups -- to effectively apply them to hospitality management situations. Many instructors teach

their course from a very applied perspective, which aligns with Barth's approach.

Impact of COVID-19 on the Hospitality Industry: Climbing Towards Recovery *Eliva Press*

This comprehensive research has been undertaken to evaluate the impact of COVID-19 in the hotel and restaurant industry. Amid temporary closures, introducing drive-thru, pick-up, third party deliveries, implementation of new technologies, and finally reopening, the restaurant industry has gone through ups and downs. Many restaurants could not afford to return to business and many lost track and employees. To evaluate the impact of COVID-19, this paper has discussed the three vital stages of the recent life of the restaurant - "Pre COVID-19", "During COVID-19" and "After COVID-19". The descriptive research has been conducted on independent restaurants to shed light on how COVID-19 has impacted them and also suggested the possible effects of survival. A variety of key themes have arisen from the findings. Firstly, the reopened hotels and restaurants workers have laid off or furloughed more than 50% of workers in Bangladesh. According to a National Restaurant Association study of the economic impact of the corona-virus crisis, the entire restaurant industry is forecast to sustain \$240 billion in losses by the end of 2020. Secondly, contrary to previous research, we find that many small companies are financially weaker than before. Therefore, the purpose of this analysis is also to explore the potential effect of the COVID-19 in the hospitality sector due to the restricted movement, summarize the lessons that were learned from other similar epidemics and global crises, and exploring the potential steps towards recovery.

The Routledge Companion to Reward Management *Routledge*

The Routledge Companion to Reward Management provides a prestige reference work and a state-of-the-art compilation, mapping out contemporary developments and debates on rewarding people in employment, and how they relate to business, corporate governance and management. Reward management stands at the interdisciplinary interface between economics, industrial relations and HRM, industrial psychology and organisational sociology, and increasingly corporate governance incorporating debates around equity and fairness in and around the employment relationship and wider capital-labour relations. In recent years, trade union decline and widening differentials between those employed at the top of organisations have generated critical commentary in the popular media which can negatively impact on social cohesion. Theoretically underpinned but practically oriented, this Companion will synthesise these trends and controversies around issues while tracing conceptual and empirical provenance, currency and future prospects. It will be an invaluable resource for student and researchers in reward management, corporate governance, management and HRM seeking convenient access to an area which is highly complex and controversial in application.

Smart Tourism as a Driver for Culture and Sustainability

Fifth International Conference IACuDIT, Athens 2018 *Springer*

Service Excellence in Tourism and Hospitality

Insights from Asia *Springer Nature*

Service operations management in the tourism and hospitality industry requires a high level of coordination, communication and facilitation to satisfy visitors. In all of these activities, service excellence means a lot to visitors in terms of their experience, and to the business it means repeat customers and word-of-mouth marketing. Based on fresh empirical evidence from the field, this book captures the different approaches and challenges to service excellence in the Asian tourism and hospitality industry. Focusing on hotels, attractions, transport providers and other segments in tourism and hospitality, this book presents new case studies underlining and detailing global and local travel industry practices. The book is meant as a reference and supplementary reading for students, researchers and industry practitioners.

Case Based Research in Tourism, Travel, Hospitality and Events *Springer Nature*

This book consolidates international, contemporary and topical case study based research in tourism, travel, hospitality and events. Case studies can make learning more attractive and interesting as well as enable students to understand the theory better and develop their analytical and problem-solving skills. Using industry as an open living lab, case study based research infuses scholars into real-world industry challenges and inspires them to theorise and advance our knowledge frontiers. The book includes international case studies that can help tourism scholars build and advance (new) theories and enrich their educational practices. Case studies are accompanied with a teaching note guiding scholars to integrate case studies into instruction. Dr Kirsten Holmes, Chair, Council for Australasian Tourism and Hospitality Education (CAUTHE) There is a vital need for contemporary and well-structured case studies for use in tourism teaching. By including case studies from Australasia and key destination regions in Asia, Europe, and the Caribbean, the book is helpful for tertiary teachers globally. Professor Xander Lub, President, EuroCHRIE The book inspires educators and students. The cases provide context to students learning and demonstrate the richness and variation of the industry. The book also clearly demonstrates how research can inform our teaching. Professor Brian King, Chair, THE-ICE Assessment Panel The book includes cases under five themes: experiences, operations, technologies, strategy and marketing, and destinations. The book provides subject lecturers with a structure to guide students of applying theory into practice. Dr Paul Whitelaw, Academic Director, Southern Cross University This book marks a significant contribution to hospitality, tourism and events pedagogy at undergraduate and postgraduate level. At a time when the industry is demanding that our graduates have a strong grasp of "real world issues", the case study approach provides an accessible, meaningful and relatable means by which students can engage in real world issues.

The Routledge Handbook of Hospitality Studies *Routledge*

In recent years there has been a growing interest in the study of hospitality as a social phenomenon. This interest has tended to arrive from two communities. The first comprises hospitality academics interested in exploring the wider meanings of hospitality as a way of better understanding guest and host relations and its implications for commercial settings. The second comprises social scientists using hosts and guests as a metaphor for understanding the relationship between host communities and guests as people from outside the community – migrants, asylum seekers and illegal immigrants. The Routledge Handbook of Hospitality Studies encourages both the study of hospitality as a human phenomenon and the study for hospitality as an industrial activity embracing the service of food, drink and accommodation. Developed from specifically commissioned original contributions from recognised authors in the field, it is the most up-to-date and definitive resource on the subject. The volume is divided into four parts: the first looks at ways of seeing hospitality from an array of social science disciplines; the second highlights the experiences of hospitality from different guest perspectives; the third explores the need to be hospitable through various time periods and social structures, and across the globe; while the final section deals with the notions of sustainability and hospitality. This handbook is interdisciplinary in coverage and is also international in scope through authorship and content. The 'state-of-the-art' orientation of the book is achieved through a critical view of current debates and controversies in the field as well as future research issues and trends. It is designed to be a benchmark for any future assessment of the field and its development. This handbook offers the reader a comprehensive synthesis of this discipline, conveying the latest thinking, issues and research. It will be an invaluable resource for all those with an interest in hospitality, encouraging dialogue across disciplinary boundaries and areas of study.

Innovation, Engineering and Entrepreneurship *Springer*

This book presents endeavors to join synergies in order to create added value for society, using the latest scientific knowledge to boost technology transfer from academia to industry. It potentiates the foundations for the creation of knowledge- and entrepreneurial cooperation networks involving engineering, innovation, and entrepreneurship stakeholders. Hospitality: A Social Lens *Routledge*

Hospitality: a social lens follows on from the unique contribution made by In Search of Hospitality: theoretical perspectives and debates. It progresses debate, challenges the boundaries of ways of knowing hospitality, and offers intellectual insights stimulated by the study of hospitality. The contributing authors provide tangible evidence of continuing advancement and development of knowledge pertaining to the phenomenon of hospitality. They draw on the richness of the social sciences, taking host and guest relations as a means of studying in-group and out-group relations with and between societies. The chapter contributors represent a multi-disciplinary, international grouping of leading academics with expertise in hospitality management and education, human resource management, linguistics, modern languages, gastronomy, history, human geography, art, architecture, anthropology, and sociology. Each lends their expertise to apply as a social lens through which to view, analyse, and explore hospitality within a range of contexts. Through this process novel ways of interpreting, knowing and sense-making emerge that are captured in the final chapter of the book, and have informed future research themes which are explored.

Regional Science Perspectives on Tourism and Hospitality *Springer Nature*

This book approaches the tourism and hospitality industry from a regional science perspective. By analyzing the spatial context of tourist travels, the hospitality sector, and the regional impacts of tourist activities, it demonstrates the value of the regional science paradigm for understanding the dynamics and effects of tourism and hospitality-related phenomena. Written by leading regional science scholars from various countries as well as professionals from organizations such as OECD

and AirBnB, the contributions address topics such as migration, new types of accommodation, segmentation of tourism demand, and the potential use of tracking technologies in tourism research. The content is divided into five parts, the first of which analyzes spatial effects on the development of firms in the tourism industry, while the second approaches temporal and spatial variability in tourism through analytical regional science tools. The broader economic and social impacts of tourism are addressed in part three. Part four assesses specific tourism segments and tourist behaviors, while part five discusses environmental aspects and tourism destination policies. The book will appeal to scholars of regional and spatial science and tourism, as well as tourism specialists and policymakers interested in developing science and evidence-based tourism policies.
