Macroeconomic variables are a bit like family dynamics. It takes budgeting or delicate calculations, structure and give-and-take to keep an economy (or family) healthy, productive and stable. Economic output, the unemployment rate, inflation and interest rates each play a part in macroeconomics.

What Are Key Macroeconomic Variables? | Bizfluent

Interest rates influence macroeconomics through several channels. For instance, a high interest rate can be associated with lower inflation, because people will

buy more bonds and bank investments, and this will result in less monetary expansion. Exchange Rates.

Exchange Rates play an important role in macroeconomics. All economy sectors that produce goods or services that can be exported or imported are heavily influenced by the exchange rate.

Macroeconomic Variables

In this research paper, attempt has been made to explore the dynamic relationship between stock market and macroeconomic variables i.e. DSE index and three key macroeconomic variables (Exchange rate, Industrial production in and Reserve), by using unit root stationary tests and Johansen co-integration test.

The Dynamic Relationship Between Stock Market Returns and ...

They provide national accounts consistency and predict changes in the key macroeconomic variables: GDP, public expenditures (G), overall taxes (T), private consumption (C), savings and investment (I), balance of payments (exports, X, and imports, IM), and aggregated price level (p), which is used to predict the protein deficiency line (z).

Macroeconomic Variable - an overview | ScienceDirect Topics

A macroeconomic model is an analytical tool designed to describe the operation of the problems of

economy of a country or a region. These models are usually designed to examine the comparative statics and dynamics of aggregate quantities such as the total amount of goods and services produced, total income earned, the level of employment of productive resources, and the level of prices. Macroeconomic models may be logical, mathematical, and/or computational; the different types of macroeconomic
