Biomechanics and Motor Control: Defining Central Concepts ...

Abstract. “Stiffness” (of muscles, joints, body limbs, etc.) is one of the most broadly used terms in human biomechanics and motor control literature. Regrettably, the term is also frequently ill-used, that is, used incorrectly, without a precise understanding of its meaning. The origin of the confusion is in the application of the concept developed for relatively simple deformable bodies to much more complex biological objects such as muscles, joints, or kinematic chains that may not ...
