Superior efficiency. With Kaeser's one-to-one drive, the airend is directly connected to the motor via a maintenance-free coupling that eliminates transmission losses. Kaeser's direct drive rotary screw compressors range from 25 hp - 650 hp, deliver outstanding performance, and increase energy savings. Kaeser uses oversized airends specifically selected to produce

the required output in flow and pressure.

Industrial rotary screw air compressors from 25 to 650 hp

A rotary-screw compressor is a type of gas compressor, such as an air compressor, that uses a rotary-type positive-displacement mechanism. They are commonly used to replace piston compressors where large volumes of high-pressure air are needed, either for large industrial applications such as chillers, or to operate high-power air tools such as jackhammers and impact wrenches. For smaller rotor sizes the inherent leakage in the rotors becomes much more significant, leading to this type of mechan
