Mastering the Art of Public Speaking in an Age of Disconnection *Random House*

A veteran journalist discovers an ancient system of speech techniques for overcoming the fear of public speaking—and reveals how they can profoundly change our lives. In 2010, award-winning journalist John Bowe learned that his cousin Bill, a longtime extreme recluse living in his parents' basement, had, at the age of fifty-nine, overcome a lifetime of shyness and isolation—and gotten happily married. Bill credited his turnaround to Toastmasters, the world's largest organization devoted to teaching the art of public speaking. Fascinated by the possibility that speech training could foster the kind of psychological well-being more commonly sought through psychiatric treatment, and intrigued by the notion that words can serve as medicine, Bowe set out to discover the origins of speech training—and to learn for himself how to speak better in public. From the birth of democracy in Ancient Greece until two centuries ago, education meant, in addition to reading and writing, years of learning specific, easily taught language techniques for interacting with others. Nowadays, absent such education, the average American speaks 16,000 to 20,000 words every day, but 74 percent of us suffer from speech anxiety. As he joins Toastmasters and learns, step-by-step, to successfully overcome his own speech anxiety, Bowe muses upon our record levels of loneliness, social isolation, and political divisiveness. What would it mean for Americans to

learn once again the simple art of talking to one another? Bowe shows that learning to speak in public means more than giving a decent speech without nervousness (or a total meltdown). Learning to connect with others bestows upon us an enhanced sense of freedom, power, and belonging.

Public Speaking for Success *Penguin*

Dale Carnegie, author of the legendary How to Win Friends and Influence People, began his career as the premier "life coach" of the twentieth century by teaching the art of public speaking.

Public speaking, as Carnegie saw it, is a vital skill that can be attained through basic and repeated steps. His classic volume on the subject appeared in 1926 and was revised twice-in shortened versions-in 1956 and 1962. This 2006 revision-edited by a longtime consultant to Dale Carnegie & Associates, Inc., and the editor in charge of updating *How to Win Friends and Influence People*-is the definitive one for our era. While up-to-date in its language and points of reference, *Public Speaking for Success* preserves the full range of ideas and methods that appeared in the original: including Carnegie's complete speech and diction exercises, which follow each chapter, as the author originally designated them. This edition restores Carnegie's original appendix of the three complete self-help classics: *Acres of Diamonds* by Russell H. Conwell, *As a Man Thinketh* by James Allen, and *A Message to Garcia* by Elbert Hubbard. Carnegie included these essays in his original edition because, although they do not directly relate to public speaking, he felt they would be of great value to the readers. Here is the definitive update of the best-loved public-speaking book of all time.

The Art of Public Speaking: How to Improve Communication Skills and Interpersonal Skills With Public Speaking Tips and Effective Communication Training *Lulu Press, Inc*

People who make their living researching what frightens people the most have made a pretty amazing discovery. Consistently when people list the top five things they are afraid of in life, they have are some pretty intimidating terrors. But you would think that death would rank number one on that list. But death doesn't take number one, it has to settle for number two. Amazingly, the number one thing that terrifies most people is not death, it is public speaking. A popular comedian once said that this means that people would rather be the guy in the casket at a funeral than the guy giving the eulogy. If you have ever been in a meeting listening to a speaker, you can usually tell if they are terrified. They will get up there and you will see that 'deer in the

headlights" look. You know that look. It is one of extreme fear, panic, and terror so profound that the person is frozen in place unable to speak or move.

Elegy for Mary Turner

An Illustrated Account of a Lynching *Verso Books*

A lyrical and haunting depiction of American racial violence and lynching, evoked through stunning full-color artwork. In late May 1918 in Valdosta, Georgia, ten Black men and one Black woman—Mary Turner, eight months pregnant at the time—were lynched and tortured by mobs of white citizens. Through hauntingly detailed full-color artwork and collage, *Elegy for Mary Turner* names those who were killed, identifies the killers, and evokes a landscape in which the NAACP investigated the crimes

when the state would not and a time when white citizens baked pies and flocked to see Black corpses while Black people fought to make their lives—and their mourning—matter. Included are contributions from C. Tyrone Forehand, great-grandnephew of Mary and Hayes Turner, whose family has long campaigned for the deaths to be remembered; abolitionist activist and educator Mariame Kaba, reflecting on the violence visited on Black women’s bodies; and historian Julie Buckner Armstrong, who opens a window onto the broader scale of lynching’s terror in American history.

Art Of Public Speaking

The Art of Public Speaking *Createspace Independent Publishing Platform*

The efficiency of a book is like that of a man, in one important respect: its attitude toward its subject is the first source of its power. A book may be full of good ideas well expressed, but if its writer views his subject from the wrong angle even his excellent advice may prove to be ineffective. This book stands or falls by its authors' attitude toward its subject. If the best way to teach oneself or others to speak effectively in public is to fill the mind with rules, and to set up fixed standards for the interpretation of thought, the utterance of language, the making of gestures, and all the rest, then this book will be limited in value to such stray ideas throughout its pages as may prove helpful to the reader-as an effort to enforce a group of principles it must be reckoned a failure, because it is then untrue. It is of some importance, therefore, to those who take up this volume with open mind that they should see clearly at the out-start what is the thought that at once underlies and is builded through this structure. In plain words it is this: Training in public speaking is not a matter of externals-primarily; it is not a matter of imitation-fundamentally; it is not a matter of conformity to standards-at all. Public speaking is public utterance, public issuance, of the man himself; therefore the first thing both in time and in importance is that the man should be and think and feel things that are worthy of being given forth. Unless there be something of value within, no tricks of training can ever make of the talker anything more than a machine-albeit a highly perfected machine-for the delivery of

other men's goods. So self-development is fundamental in our plan. The second principle lies close to the first: The man must enthrone his will to rule over his thought, his feelings, and all his physical powers, so that the outer self may give perfect, unhampered expression to the inner. It is futile, we assert, to lay down systems of rules for voice culture, intonation, gesture, and what not, unless these two principles of having something to say and making the will sovereign have at least begun to make themselves felt in the life.
