The most likely reason why things go wrong is a failure of values-based practice – not ascertaining the relevant values perspectives and acting on them in a coherent and purposeful manner. If you rehearse and practise the elements of values-based practice detailed in this book, you will find your consultations more personally rewarding and your patients are likely to derive more benefit.

Values-based practice, in order to mean anything at all, must mean practice that knowingly incorporates the appreciation of values that have a bearing on the decisions we make in that practice. I say 'have a bearing' because it is not only the values that inform our decisions, but also those that should, within the values-system that we inhabit, inform our practice.

Values-based practice, as we indicated in our introduction, is a new skills-based approach to working more effectively with complex and sometimes conflicting values in medicine. As such, values-based practice is like evidence-based practice: both are responses to the growing complexity of clinical decision-making. Evidence-based practice supports clinical decision-making where complex and sometimes conflicting evidence is in play.
