**Implementation of an Intelligent Tutoring System for ...**

Abstract. An intelligent tutoring system is computer software designed to simulate a human tutor's behavior and guidance. Because these systems are able to interpret complex student responses and can learn as they operate, they are able to discern where and why a student's understanding has gone astray and to offer hints to help the student understand the material at hand.

**It Takes Two | 12th International Conference on ...**

The International Conference on Intelligent Tutoring Systems (ITS) is the oldest conference series in the field of intelligent educational systems. It was established in 1988 by Claude Frasson. The first several events were held every four years and, while engaging a broad international audience, were always located in Montreal, Canada.
