Gottlob Frege (1848-1925) is most celebrated today for his contributions to mathematical logic and the philosophy of language. The first section below considers why a philosophical investigation of language mattered at all for Frege, the mathematician, and why it should have mattered to him. At the same time, the considerations may serve to illustrate some general motivations that were behind the development of philosophy of language as a separate branch of philosophy in the 20th century.
