Thompson And Strickland Strategic Management

This new model is called the Thompson and Strickland Strategic Management Model. Thompson and Strickland strategic management model have developed for analyzing the industry, including competition within the industry. However, there is described the Thompson and Strickland strategic management model and its important principles.

Thompson and Strickland Strategic

Management Model

According to Thompson and Strickland strategic management is an ongoing process: "nothing is final and all prior actions and decisions are subject to future modification."

This process consists of five major five ever-present tasks: 1.

Developing a concept of the business and forming a vision of where the organization needs to be headed. 2. Converting the mission into specific performance ...

Strategic Management task 2 Resource Weakness Thompson, Peteraf, Gamble, and Strickland (2012) say that a weakness, or competitive disadvantage, is something that a company lacks or does poorly, or a condition

that puts it at a competitive disadvantage in the

market place. There are three resource weaknesses that can exist.
